## Message

I am happy to learn that National Crime Records Bureau (NCRB) is bringing out its annual publication '**Crime in India 2014**'. The efforts made towards this edition of the report are indeed commendable as after a massive exercise of proforma revision and software development, this published data have been collected from all States / UTs, collated and are being released. It is a remarkable achievement and I take this opportunity to congratulate the Director General, NCRB and her team of officers for successfully releasing their core publication.

Over the years, '**Crime in India**' has become a very crucial publication of Government of India, providing useful and detailed information on crime statistics and trends in the country. This year this publication includes more elaborate data on certain important crime heads as the section-wise data of certain IPC and SLL crime heads and disposal of cases & persons by police & courts have also been covered. Besides, the Bureau has also compiled some additional useful data like crime against senior citizens, crime against foreigners, environment related offences etc. The information on these newly emerging crimes is of paramount importance for maintenance of social order, law & order and security of our country. It will also serve as an important tool in the hand of researchers, criminologists and officials of criminal justice system in the country.

I also commend the efforts of the State Crime Records Bureaux / CID of the State and UT Police Departments for supplying huge data on crime statistics in the revised formats, within the time frame. Their efforts and dedication are greatly appreciated by the Ministry. Since the new proforma and software are now fully established and comprehended, I urge the Law Enforcement agencies of the State Government / UT Administrations to send the validated and consistent data for the year 2015 to the NCRB by the end of February, 2016 so that the next edition of publication can be brought out by March, 2016.

## Foreword

It is my proud privilege to bring out the 62<sup>nd</sup> edition of '**Crime in India 2014**', an annual publication of National Crime Records Bureau. Since its inception in the 1953, this has been the principal reference document on Crime Statistics in our country. Over the past decades, this report has become quite well-known and its release is widely awaited every year.

Like the earlier editions, this one also contains detailed information on cognizable crimes, disposal of crimes by police and courts, property crimes etc. Besides, this edition brings out additional data on certain newly emerging categories of crimes such as cyber crimes, environment related Offences, human trafficking, crimes under various sections of the Criminal Law (Amendment) Act, 2013 etc. It has been our constant endeavour to improve the scope, coverage, content and presentation of our annual report. The magnitude of the exercise taken up for this edition can be gauged from the fact that the data have been collected in 34 newly revised proforma from SCRBy/CID of all 36 States/UTs and 53 Mega Cities(City having population of 10 lakh or more).

Like previous years, the report is published in two volumes, namely 'Crime in India (Compendium)' and 'Crime in India (Statistics)'. However, the number of chapters in each volume has gone up as there are exclusive chapters devoted to 'Crime Against Senior Citizens', 'Crime Against Foreigners', 'Environment Related Offences', 'Offences Against the State', 'Crime Committed by Foreigners', 'Seizures of Arms & Drugs by Police'.

Such a comprehensive report will definitely help in arriving at an appropriate policy and strategy to deal with the challenges, present and future. I am confident that this publication would meet the requirements and expectations of the policy makers, administrators, criminologists, media, NGOs, the general public and other stakeholders of criminal justice system.

"Please visit our website at <http://nrb.gov.in>"

I appreciate the efforts of the staff of the Bureau who worked hard with utmost dedication and enthusiasm to publish this edition in time. The Software Development Team of our Statistical Branch deserves special praise for having successfully developed a new user-friendly software for the revised proforma used in this report which has facilitated data entry in multilingual format both at the level of police stations and districts. All validation and consistency checks have been incorporated in software itself, leading to reduction of time lag in publication. Moreover, it will be possible to generate state-specific crime reports also through this newly developed software. We are proud of this achievement.

I am extremely grateful to the State Crime Records Bureaux/CID of the States/UTs for their efforts and valuable support in sending the validated and consistent data under the revised formats. Since the new performance and software are now fully in place and comprehended, we shall appreciate if the validated and consistent data for the year 2015 is sent by February, 2016 so as to ensure the publication of the next edition by March, 2016.

It is my duty to apprise the readers of the fact that due to constraint of cost and size, only limited data have been published under this publication. The remaining data is published separately in '**Additional Table for CII**' on our website <http://nerb.gov.in> under publication link. Besides, the historical data on crime statistics in an open format are also uploaded on the Open Government Data Platform India (<https://data.gov.in>) and an external link of the same has been given on our website under ' NCRB on Data Portal'.

We welcome inputs and suggestions to be sent to us in the feedback form attached for further improvement of content and quality of this publication.

# Disclaimer

- The information given in this report has been obtained from States/UTs Police. All precautions have been taken to ensure that the data is statistically consistent. NCRB has only compiled and collated the data and presented it in the form of this report. As data is being furnished by States/UTs thus NCRB shall not be responsible for authenticity of this information. However, any discrepancy observed in this report may be brought to the notice of the Bureau.
- The Bureau is collecting statistical data of police recorded cognizable crimes through a set of 34 proforma from 36 States/UTs and 53 Mega Cities (i.e. total of 89 data supplying centres). The data pertain to the calendar year 2014.
- In this report, the calculated values of crime rate, percentage etc. are rounded up to only one decimal; hence an approximate value is used for analysis.
- However, in the present edition, in order to make the statistical analysis more meaningful, we have calculated 'Crime Rate' on the basis of population of that segment only. Since calculation of Crime Rate was essential for making State/UT wise comparison in incidents of crimes, the population used for calculation of crime rate for crime against women, scheduled castes, scheduled tribes, children, senior citizens are approximate value, as in absence of availability of such data a crude approach of population estimation based on population ratio of districts falling under Andhra Pradesh and Telengana as per the Population Census 2011 has been adopted. However, the Projected Population as on 1<sup>st</sup> July of respective year, furnished by Office of RGI, MHA has been used for State/UT. Hence the Bureau does not claim the precise accuracy of estimated population.
- The Bureau follows 'Principal Offence Rule' for counting of crime. Hence among many offences registered in a single case, only most heinous crime has been considered as counting unit, thereby representing one case.
- The Socio-economic causative factors or reasons of crimes are not being captured by the Bureau. Only police recorded criminal cases are being captured for this publication.
- In this edition, data have been collected under revised proforma wherein some new crime heads included and sections of some earlier crime heads have been changed.
- In order to avoid duplication of data collection, the Bureau has discontinued data collection for the erstwhile Chapter-17 on Police Infrastructure, as Bureau of Police Research and Development is already collecting and publishing the same information.
- Analysis for all the Chapters, except Chapter-4 & Chapter-12 wherein disposal details have also been given, has been done on the basis of First Information Report(FIR), as registered by police.
- In this edition, for the first time, the Bureau has collected, collated and published information on 'Offences Against the State', 'Environment Related Offences', 'Crimes Against Senior Citizens', 'Crimes Against Foreigners', 'Crimes Committed by Foreign Citizens' etc. Besides, some additional information on 'Cyber Crimes', 'Human Trafficking', 'Kidnapping & Abduction', 'Crimes Against Women/Children/SCs/STs' etc. have also been included.

# Disclaimer

- Considering the cost and size of report, the Bureau has printed only limited tables. The incidents of crimes in cities have been put exclusively under Chapter 2. However, all the remaining tables will be made available on our website <http://ncrb.gov.in> under 'Additional Table for CII' link.
- In present edition, 'Crime against Women' include crime head viz. Rape, Assault on Women with Intent to Outrage her Modesty, Insult to the Modesty of Women, Importation of Girls from Foreign Country, Cruelty by Husband or His Relatives, Kidnapping & Abduction of Women, Abetment of Suicides of Women, Dowry Deaths, the Dowry Prohibition Act, 1961, the Indecent Representation of Women (Prohibition) Act, 1986, the Commission of Sati Prevention Act 1987, the Protection of Women from Domestic Violence Act, 2005 and the Immoral Traffic (P) Act. Whereas in previous edition, it included the cases of Rape, Assault on Women with Intent to Outrage her Modesty, Insult to the Modesty of Women, Importation of Girls from Foreign Country, Cruelty by Husband or his Relatives, Kidnapping & Abduction of Women, the Dowry Prohibition Act, 1961, the Indecent Representation Of Women (Prohibition) Act, 1986, the Commission of Sati Prevention Act 1987 and the Immoral Traffic (P) Act.
- Under the revised proformae, more elaborate classification of crime heads under 'Crimes against SCs & STs' has been made. In present edition, under 'Crimes against SCs & STs' crime heads have been categorised as 'IPC crimes reported along with the SC/ST(PoA) Act', 'IPC crimes without SC/ST(PoA) Act', 'The Protection of Civil Rights Act' 'The Employment of Manual Scavengers and Construction of Dry Latrines (Prohibition) Act' and 'Other SLL Crimes'.
- Cyber Crimes constitute the figures of the Information Technology Act (as per amendment of 2008) and related sections of IPC & SLL. In previous editions, Cyber Crimes include the figures of the IT Act and related sections of IPC only. Apart from this, detail data cases reported & persons arrested and their disposal by police and courts have also been collected and published in this edition.
- All editions of the publications have been made available on our website. Besides, the time series data, in open format, have also been made available on the website <http://data.gov.in> of Open Government Data (OGD) Platform India.
- Crime rate for crime against women, crime against children, crime against SCs/STs and crime against senior citizens have been calculated using population of female, children(up to 18 years), SCs/STs and persons (60 years & above).
- The complaints against police personnel ([Table 16.1](#)) include complaints related to family problems, general complaints etc.
- In some crime heads, figures of persons arrested/charge-sheeted/convicted/etc. may be less than the corresponding registered cases, as accused might not have been arrested, died etc.
- For some crime heads, cases/persons pending for investigation or trials brought forward in 2014 may not match with the previous year data (2013), due to change/modification of sections of that crime heads, as data have been collected under the revised proformae.

## **Limitation**

- Projected Mid-Year Population for the year 2014 which is based on The Population Census 2001, as supplied by Demographic Division, RGI, MHA, is used for calculation of crime rate. However, rough estimation based on population ratio of Districts as per The Population Census 2011 for the newly created States namely Telangana and Andhra Pradesh.
- Like previous years, this year also mid-year estimated population of children (up to 18 years of age) has been used for calculating crime rate in respect of crime against children for the year 2014. However, rough estimation based on population ratio of Districts as per The Population Census 2011 for the newly created States namely Telangana and Andhra Pradesh.
- Population figures of persons belonging to SCs & STs, Senior Citizens and Mega Cities from the Population Census 2011 have been used for calculating Crime Rate for ‘Crime against SCs & STs’, ‘Crime Against Senior Citizens’ and ‘Crime Rate in Mega Cities’, due to non-availability of projected mid-year population figures for the year 2014 for these categories.

## Incidence of total cognizable crime (IPC) 1954-2014

# Chapter - 1

## Executive Summary

### Introduction

The Criminal Procedure Code (Cr.P.C.) classifies all the crimes into two categories:

- (i) Cognizable - Sec.2(c) Cr.P.C.
- (ii) Non-cognizable - Sec.2(l) Cr.P.C.

### Cognizable Crimes

A cognizable offence or case is defined as the one which an officer in-charge of a police station may investigate without the order of a magistrate and effect arrest without warrant. The police have a direct responsibility to take immediate action on the receipt of a complaint or of credible information relating to such crimes, visit the scene of the crime, investigate the facts, apprehend the offender and arraign him before a court of law having jurisdiction over the matter. Cognizable crimes are broadly categorised as those falling either under the 'Indian Penal Code (IPC)' or under the 'Special and Local Laws (SLL)'.

### Non-cognizable Crimes

Non-Cognizable crimes are defined as those which can not be investigated by police without the order of a competent magistrate. Police do not initiate investigation in non-cognizable crimes except with magisterial permission. First schedule of the Cr.P.C. gives the classification of the offences of the IPC into cognizable & non-cognizable categories.

Various crimes that are being registered and investigated by different law enforcement agencies are broadly grouped under the following categories for statistical information system.

### Broad classification of crimes under the Indian Penal Code (IPC)

- i) **Crimes against body:** Murder, Attempt to commit murder, Culpable

homicide not amounting to murder, Attempt to Culpable Homicides, Kidnapping & Abduction, Grievous hurt, Causing death by negligence, Causing injuries under rash driving/road rage, Human trafficking(under Section 370/370A IPC);

- ii) **IPC Crimes under sexual offences:** Rape, Attempt to rape, Assault on women with intent to outrage her modesty, Insult to modesty of women;
- iii) **Crimes against property:** Dacoity, Making preparation and assembly for committing dacoity, Robbery, Criminal trespass/ Burglary and Theft;
- iv) **Crimes against public order:** Riots, Arson, Unlawful assembly and Offences promoting enmity between different groups;
- v) **Economic crimes:** Criminal breach of trust, Cheating, Forgery and Counterfeiting;
- v) **Human trafficking:** Human trafficking under section 370/370A of IPC, Procurement of minors, Importation of girls from foreign country, Selling & Buying of minors for prostitution;
- v) **Offences against the State:** Offences against the State under section 121, 124A IPC and promoting enmity between different groups
- vi) **Crime against children:** foeticide, infanticides, procurement of minors, selling/buying of minors etc.
- vii) **Other crimes**

## **Complaints received by police**

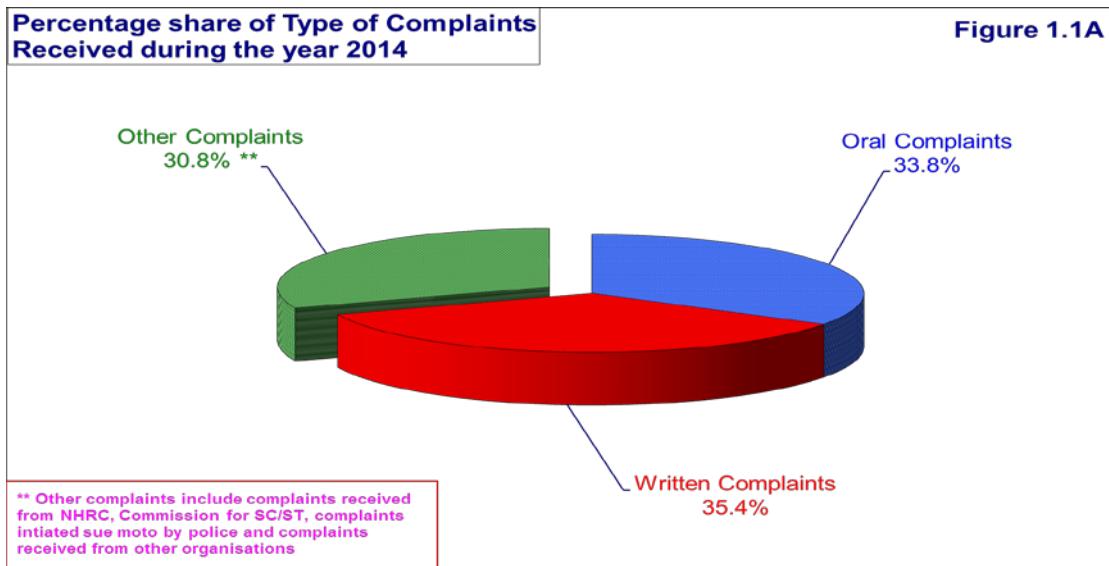

The total number of complaints received by police including oral, written, distress call or the ones initiated suo-moto by police is being collected since 1999 in order to assess the quantum of work load of police. The NCRB has now started collecting detailed data on nature and types of crime related complaints received by

police. The nature and number of crime related complaints vis-à-vis actual number of cognizable crimes registered by Police are presented in **Table-1.1**.

A total of 1,30,27,600 complaints were received by police in the country

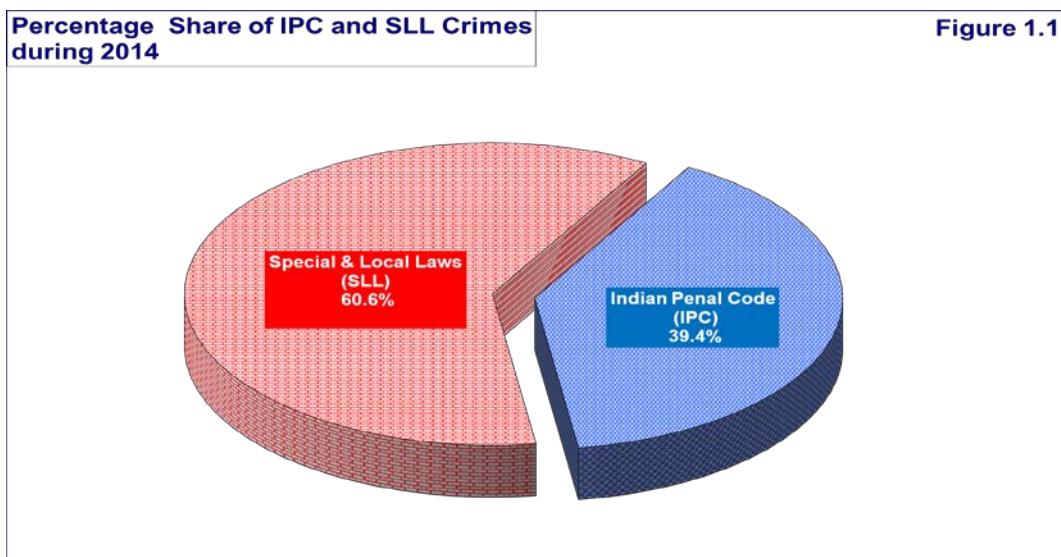

complaints received vide distress call over phone/dial 100) and 30.8% complaints were of other kind of complaints which include 23.6% complaints initiated suo-moto by Police.

Nearly, 28.8% of these complaints

during the year 2014 as compared to 1,86,84,289 complaints received during the year 2013 showing a decrease of 27.8% over 2013, it is due to fact that some States have given non-crime related complaints in previous year(2013). 35.4% of these were written complaints, 33.8%

were registered as non-cognizable offences (37,55,602 out of 1,30,27,600 complaints).

were oral complaints (including 23.7%

## Cognizable crimes

The incidents of cognizable crimes in the country during the decade from 2004 to 2014 are presented in **Table-1.2**. As many as 72,29,193 cognizable crimes were reported in the country during 2014 comprising 28.5 lakh cases registered under the IPC and 43.8 lakh cases registered under the SLL. The ratio of IPC to SLL crimes varied from 1:2.03 in 2010 to 1:1.54 in 2014. In terms of percentage, 60.6% of total cases (IPC + SLL) during 2014 were reported under Special & Local Laws and rest of the cases (39.4%) under the Indian Penal Code (IPC).

over a period of time indicate an increase or decrease of the incidence of crime, requiring appropriate crime control efforts by the State police.

The incidents of IPC crimes during 2014 reported a higher growth of 19.9% as compared to 14.6% population growth during the decade (2004 - 2014) [**Table-1.2**].

## Crime rate (IPC + SLL)

(*Crime rate: 581.1*)

Population is one of the important factors influencing incidence of crime. A number of socio-economic factors, besides population, could influence the crime

**Table-1 (A)**  
**Cognizable crimes registered during 2010-2014**

Year	Number of Cases			Ratio (IPC: SLL)	Rate per (1,00,000 population)
	IPC	SLL	Total		
2010	22,24,831	45,25,917	67,50,748	1:2.03	569.3
2011	23,25,575	39,27,154	62,52,729	1:1.69	516.7
2012	23,87,188	36,54,371	60,41,559	1:1.53	497.9
2013	26,47,722	39,92,656	66,40,378	1:1.51	540.4
2014	28,51,563	43,77,630	72,29,193	1:1.54	581.1

The rate of total cognizable crimes (IPC + SLL) was reported as 581.1 in the year 2014 showing an increase of 2.1% over the year 2010 and an increase of 7.5% over 2013. However, it has shown a mixed trend during 2004 – 2014 [**Table- 1.2**].

## Population

For States/UTs, the population figures of mid-year projected population as on 1st July of respective year has been used for years 2004 – 2014, except for the year 2011 (actual population figures of the Population Census 2011 have been used for the year 2011). The population of the country in the decade (2004-2014) has increased by 14.6% with an annual compound growth rate of 1.4% [**Table-1.2**].

## Crime incidence (IPC + SLL)

(*Incidence: 72,29,193*)

Total incidence of crime gives an absolute picture of the crime situation in the country or the State/UT. Comparative figures

situation at a particular place. The present analysis of crime rate is restricted to the influence of population only. Therefore, the analysis of crime rate of a particular State/UT shouldn't be construed as the sole indicator of crime position of that particular State/UT in relation to others.

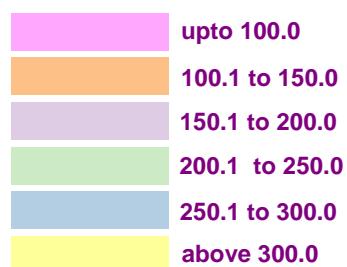

Crime rate for women related crimes has been calculated using female population only whereas for remaining, it has been calculated on the basis of total population.

The 'crime rate' defined as the number of crimes reported per 1,00,000 population is universally taken as a realistic indicator since it balances the effect of growth in population and size of State. The rate of total cognizable crimes in the country which showed a declining trend during the period 2004-2006 (from 555.3 in the year 2004 to 455.7 in the year 2006), thereafter shown a rising trends during 2007 - 2009 (from 504.5 in the year 2007 to 570.8 in the

year 2009), which again slightly decreased to 569.3 in the year 2010 and further to 516.7 in 2011 and 497.9 in 2012. It rose to 540.4 in 2013. During last two years (2013 - 2014), it has shown a rising trend (from 540.4 in the year 2013 to 581.1 in the year 2014). The sudden drop in crime rate from 555.3 in the year 2004 to 455.8 in the year 2005 may be attributed to the exclusion of certain non-cognizable crimes by Kolkata Police in 2005 data, which were being included inadvertently under the crime-head 'Other SLL crimes' prior to the year 2005. The crime rate in respect of IPC crimes has increased by 6.4% during 2014 over 2013, from 215.5 in the year 2013 to 229.2 in the year 2014 and for SLL crimes, an increase of 8.3% was reported during 2014 over 2013 (from 324.9 in 2013 to 351.9 in 2014).

#### **Crime incidence- IPC** *(Incidence: 28,51,563)*

A total of 28,51,563 cases registered under various sections of IPC crimes were reported in the country during the year 2014 against 26,47,722 in the year 2013 recording an increase of 7.7% in the year 2014 over 2013. The share of IPC crimes to total cognizable crimes in percentage terms, has slightly increased from 33.8% in the year 2010 which further increased to 37.2% in 2011, 39.5% in 2012 and 39.9% in 2013, however, it decreased to 39.4% in 2014. Thus showing mixed trends during the five-year period from 2010 to 2014.

Madhya Pradesh has reported highest percentage share of total such reported cases (9.6%) followed by Maharashtra (8.8%), Uttar Pradesh (8.4), Rajasthan (7.4%), Kerala (7.3%), Tamil Nadu (6.8%), West Bengal (6.5%), Bihar (6.2%) and Delhi (5.5%) in the country during the year 2014. Details are presented in **Table-1.4**.

#### **Crime rate – IPC** *(Crime rate: 229.2)*

The IPC crime rate has increased by 35.8% during the decade 2004-2014

from 168.8 in the year 2004 to 229.2 in the year 2014. It has increased by 17.6% during the year 2014 as compared to quinquennial average (during 2009-2013). An increase of 6.4% was reported in 2014 over 2013. Delhi (767.4), Kerala (585.3), Madhya Pradesh (358.5), Haryana (298.2), Assam (296.5), Rajasthan (295.1), Telangana (294.5) and 4 other States/UTs have reported much higher crime rates as compared to the national average of 229.2 **[Table-1.4]**.

#### **Trend analysis**

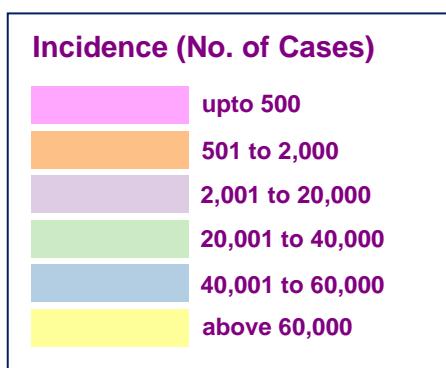

##### **IPC crimes under sexual offences** *(Incidence: 1,32,939      Rate: 22.2)*

Sexual offences comprise rape, attempt to commit rape, assault on women with intent to outrage her modesty and insult to the modesty of women, as defined in the beginning of the chapter. A total of 1,32,939 such cases were reported under sexual offences during 2014. The share of these crimes to total IPC crimes at the national level was 4.7% during the year 2014. The percentage share of these crimes to total IPC crimes was highest in Tripura (14.1%) followed by Mizoram (11.5%) and Odisha (10.6%) as compared to national average of 4.7% of total IPC crimes. Details are presented in **Table-1.7**. The crime rate of sexual offences was highest in Delhi (87.0) followed by Mizoram (48.8), Tripura (42.3), Madhya Pradesh (41.8) and Goa (39.3) as compared to national rate of 22.2.

##### **Crimes against body** *(Incidence: 8,13,745      Rate: 65.4)*

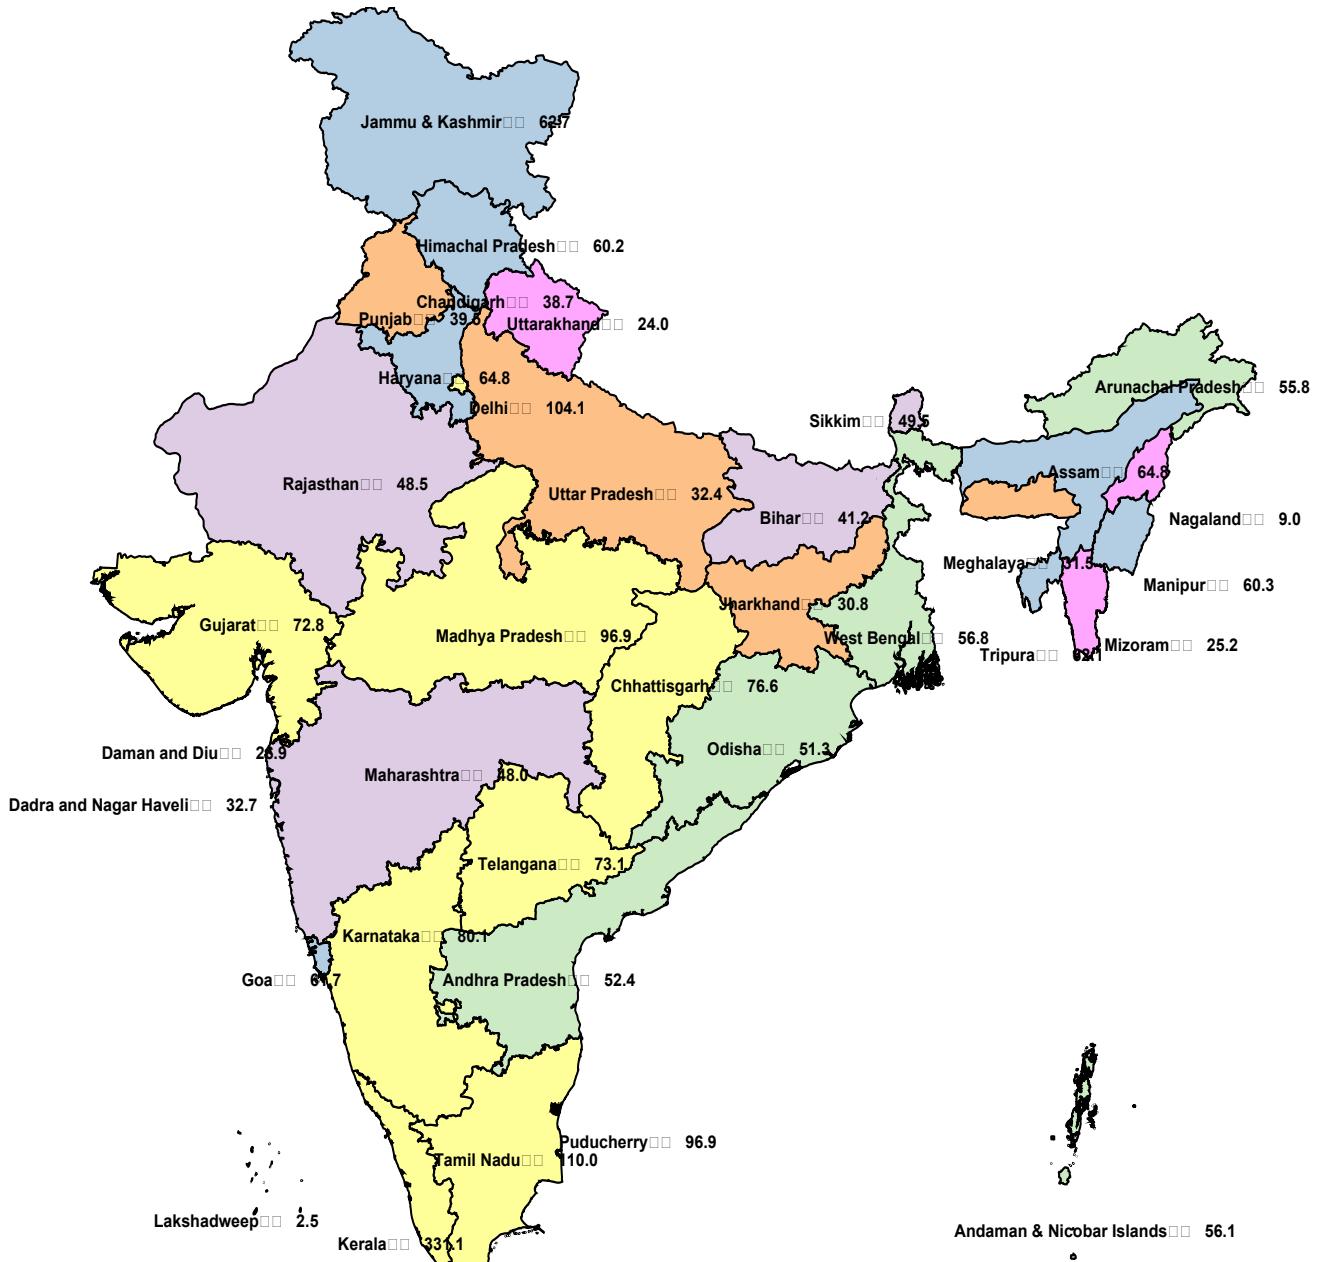

Crimes against body comprise murder, attempt to murder, culpable homicide not amounting to murder, attempt to culpable homicide, kidnapping & abduction, grievous hurt, causing death by negligence, causing injuries under rash driving/road rage, dowry deaths and human trafficking (under section 370/370A IPC), as defined in the beginning of the chapter.

## RATE OF CRIME AGAINST BODY DURING 2014 (All India 65.4)

### Rate of Crime

Note:

Rate of Crime against Body means number of crimes against body per one lakh population.

Map powered by DevInfo, UNICEF

A total of 8,13,745 such cases were reported under crimes against body during 2014. The share of these crimes to total IPC crimes at the national level was 28.5% during the year 2014. The share of these crimes to total IPC crimes was highest in Kerala (56.6%) as compared to national average of 28.5% of total IPC crimes. Details are presented in **Table-1.8**. The rate of crimes against body was highest in Kerala (331.1 per lakh population) followed by Tamil Nadu (110.0) and Delhi (104.1) compared to national rate of 65.4.

#### **Crimes against property**

(*Incidence: 6,00,861      Rate: 48.3*)

These crimes comprise dacoity, making preparation & assembly to commit dacoity, robbery, criminal trespass/burglary and theft. A total of 6,00,861 cases were reported during the year 2014 as compared to 5,16,648 such cases during the year 2013, showing an increase of 16.3%. The share of these crimes to total IPC crimes at the national level was 21.1% during the year 2014. The share of these crimes to total IPC crimes was reported highest in Mizoram (62.4%) followed by Delhi (61.4%) and Chandigarh (45.5%) compared to national average of 21.1%. The share of such crimes in the country shows an increase of 8.2% from 19.5% in the year 2013 to 21.1% in 2014. Details are presented in **Table-1.9**.

#### **Crimes against public order**

(*Incidence: 85,537      Rate: 6.9*)

Riots, arson, unlawful assembly and offences promoting enmity between different groups are the major components of crimes against public order which constitute 3.0% of total IPC crimes. Incidence of crimes under this head has increased by 5.0% from 81,483 cases in the year 2013 to 85,537 cases in the year 2014. The rate of such crimes has marginally increased from 6.6 in the year 2013 to 6.9 in the year 2014. The rate of such crime was reported highest in Lakshadweep at 20.3 followed by Kerala (19.5) and Sikkim (19.2) compared to

national average of 6.9. **Table-1.10** may be seen for details.

total victims under culpable homicide not amounting to murder. The State/UT wise details are presented in **Table 3.4**.

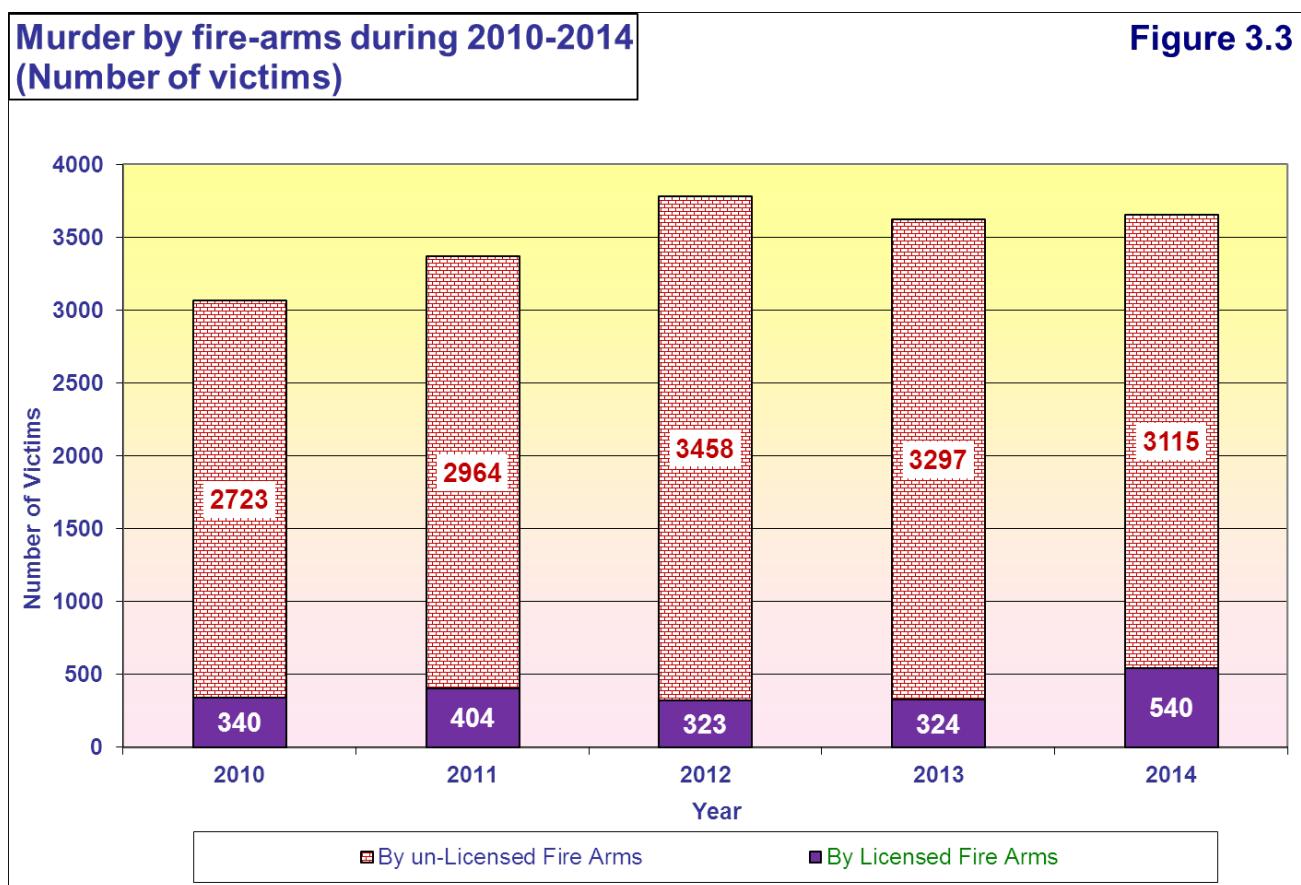

#### Use of fire arms in murder cases

Information on the use of fire-arms for murder has also been collected from States/UTs since the year 1999. The State/UT wise details are presented in **Table-3.5**.

The proportion of murder victims by use of fire-arms showed a mixed trend during

2010-2014 (**Table 3(E)**). A total of 3,655 victims out of 35,139 victims murdered using fire-arms. Out of these 3,655 victims, 540 victims were murdered by licensed firearms and 3,115 victims were murdered by un-licensed fire- arms. The States of Uttar Pradesh (1,510 victims) and Bihar (933 victims) have reported significant number of victims murdered by use of fire-arms. These two States accounted for 66.8% of the total victims killed using fire-arms in the year 2014.

On an average nearly 10 persons per

day murdered using fire-arms during the year 2014. Uttar Pradesh which reported 15.2% of total murder cases represented almost one-third (41.3%) of the victims of murder by use of fire arms at the national Level (1,510 out of 3,655 victims killed by fire-arms).

### Unidentified dead bodies

The investigating Officers (IOs) often spend considerable time in identification of unidentified dead bodies for which inquest and detailed enquiries are made for solving such cases. Such cases are subsequently registered on detection under other crime heads such as murder, C.H. not amounting to murder etc., as per the evidence collected by the police.

The number of unidentified dead bodies recovered and for which inquests had been conducted during the last five years showed a mixed trend during the period 2010 – 2014 (**Table 3(F)**)

**Table - 3 (F)**

**Unidentified dead bodies recovered and inquest conducted during 2010 to 2014**

SL	Year	No. of un-identified dead bodies recovered and inquest conducted
1.	2010	33,857
2.	2011	37,193
3.	2012	37,838
4.	2013	38,821
5.	2014	35,215

A total of 35,215 unidentified dead bodies were recovered at all India level and necessary inquests as per the law were conducted by the police. Thus, the police had to conduct inquest for around 97 such cases everyday on an average at all India level. Some States reported higher recovery of such un-identified dead bodies, these State were Maharashtra (4,860 victims), West Bengal (3,740 victims), Uttar Pradesh (3,707 victims), Delhi UT (3,115 victims) and Tamil Nadu (2,657 victims). The State/UT wise details are presented in **Table-3.6**.

## Chapter-4

### Disposal of cases by Police and Courts

The disposal of cases registered under various sections of IPC and SLL by police and courts have been further split to collect detail data on disposal of cases by police and courts. In the revised proforma the cases investigated by police have been further sub-categorized in which final reports were submitted declaring case as false, cases as mistake of fact or of law, or as non-cognizable and cases in which charge-sheets not laid but final reports were submitted as true cases. Besides, data on cases in which charge-sheets have been submitted, out of cases reported during the same year and out of cases reported during previous years have also been collected.

Similarly, in addition to earlier stages of trials under disposal cases by courts, data on cases disposed under plea bargaining have also been collected in 2014. Besides, data on

cases convicted and acquitted/discharged have been collected as cases convicted and acquitted/discharged during the year, out of cases reported during the same year and out of cases reported during previous years.

#### **Disposal by police (Decadal variations)**

The quantum of work-load relating to IPC cases investigated and cases disposed of by police during the last four decades are presented in **Table 4(A)**. It is observed that the cases charge-sheeted to total true cases investigated increased considerably from 54.4% in the year 1974 to 79.2% in the year 2014 although the percentage of cases in which investigation was completed to total cases for investigation has declined from 80.9% in the year 1974 to 71.9% in the year 2014.

## **Disposal of IPC cases by police during the year**

There were 37,93,771 cases (consisting of 9,48,073 cases pending from previous years and 28,51,563 cases reported during the year) for investigation during the year 2014.

Out of these 37,93,771 cases, in 1,05,852 cases police submitted final report declaring as false, in 96,858 cases final report submitted as mistake of fact or of law during 2014. A total of 19,97,540 cases were charge-sheeted by police and in 5,10,405 cases charge-sheets were not laid but final reports as true cases were submitted. At the end of 2014, a total of 10,65,421 cases under various sections of IPC were pending for investigation. The details of crime head wise disposal may be seen in **Table 4.1**.

Out of 19,97,540 IPC crime cases in which charge-sheets were submitted during 2014, 15,53,587 cases were reported in same year i.e. in 2014 whereas 4,43,953 chargesheeted cases were reported in previous years, accounting for 77.8% and 22.2% of total charge-sheeted cases respectively.

A chargesheet rate of 79.6% was reported under total IPC crimes during 2014. The highest charge-sheeting rate of IPC cases during 2014 was observed in Kerala (96.7%), followed by Madhya Pradesh (93.5%), Andhra Pradesh (91.9%), Mizoram (88.8%) and Tripura (88.1%). The Delhi UT could submit charge-sheets in only 40.5% of cases investigated. The State/UT wise details may be seen in **Table 4.2**.

## **Disposal of SLL cases by police during 2014**

A total of 46,37,402 cases (consisting of 2,70,642 cases pending from previous years and 43,77,630 cases reported during the year) under SLL were for investigation during 2014. After investigation by police, in 6,650 cases final reports were submitted declaring these cases as false, in 6,378 cases final reports were submitted as mistake of fact or of law and in 1,232 cases as non-cognizable were

submitted by police. A total of 42,74,255 cases charge-sheets were submitted by police and in 70,293 cases charge-sheets were not laid but final reports as true cases were submitted during 2014. A total of 2,78,419 cases were pending for investigation at the end of 2014. The charge-sheeting rate was 98.4% and only 6% cases were pending investigation in respect of SLL crimes. The details may be seen in **Table 4.3**.

Out of 42,74,255 SLL crime cases in which charge-sheets were submitted during 2014, 41,22,672 cases were reported in same year i.e. 2014 whereas 1,51,583 charge-sheeted cases were reported in previous years, accounting for 96.5% and 3.5% of total charge-sheeted cases respectively.

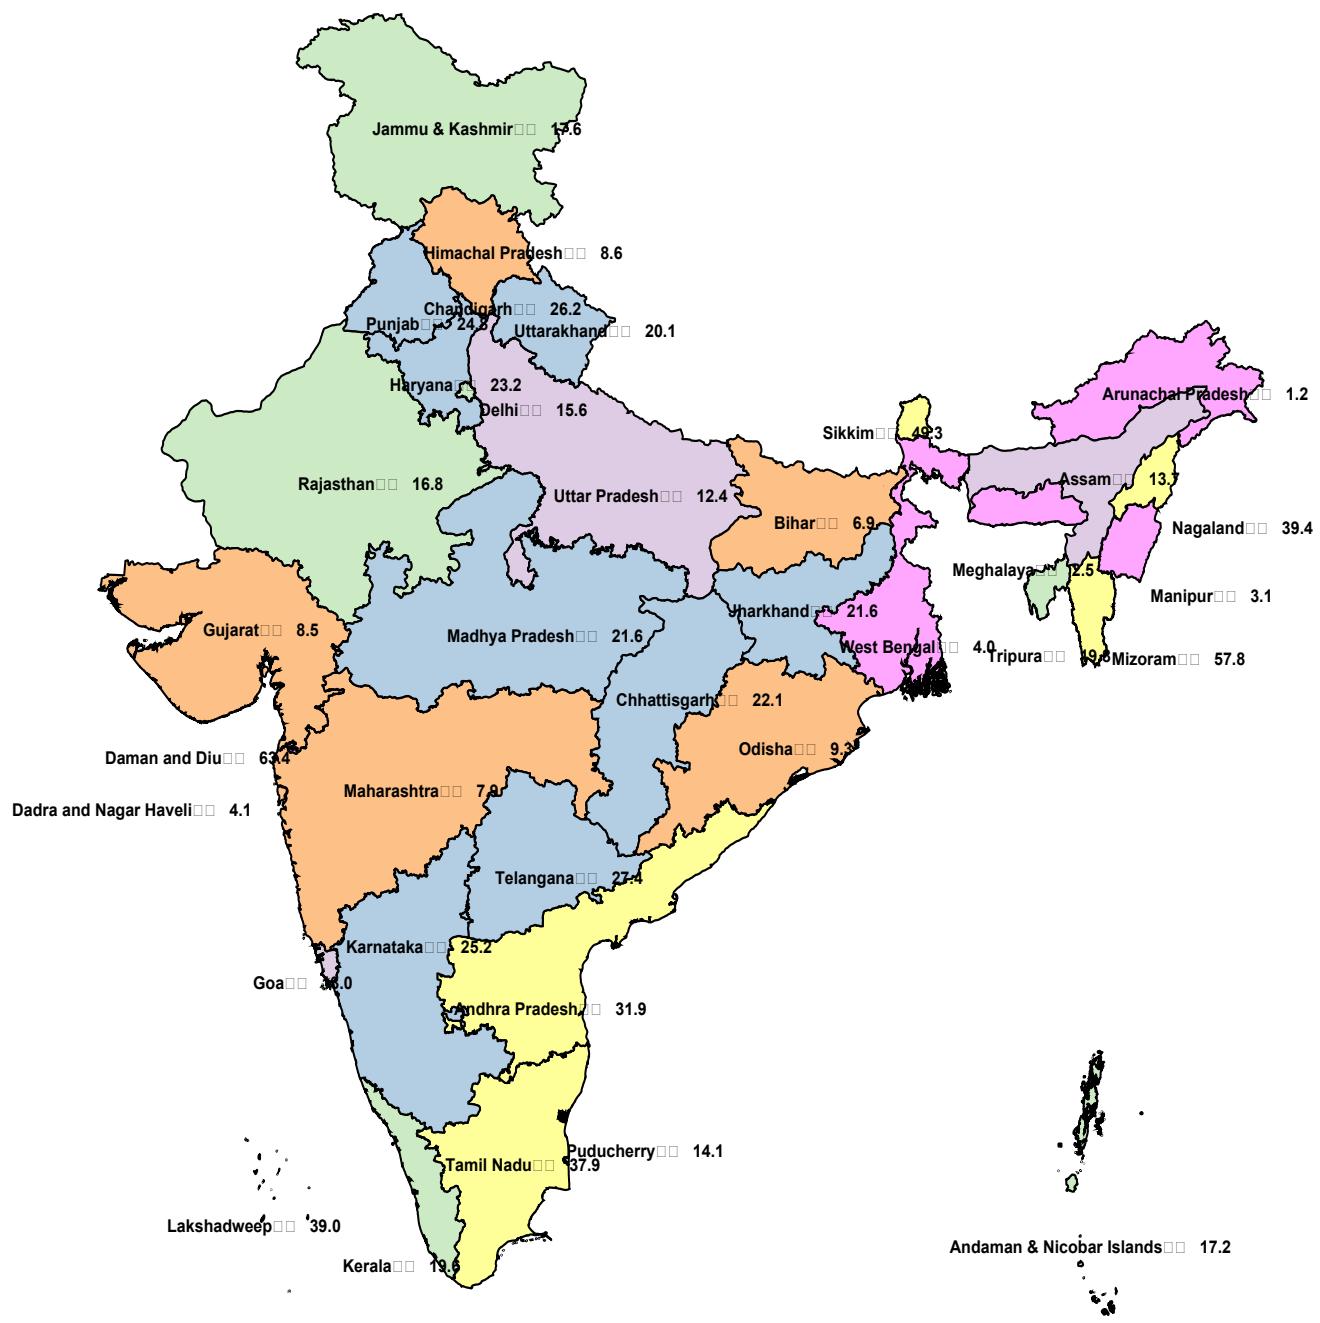

It is noteworthy that in general, States have reported much higher charge-sheeting rate of SLL crime cases as compared to IPC crime cases. Chhattisgarh (100.0%), Gujarat (99.8%), Kerala (99.2%), Madhya Pradesh (99.9%), Odisha (99.1%), Uttarakhand (99.9%) A&N Islands (99.6%), Daman & Diu (100.0%) and Lakshadweep (100.0%) have reported higher charge-sheet rate during 2014, the details may be seen in **Table 4.4**.

## **Disposal by Courts (Decadal variations)**

The quantum of IPC cases to be tried by courts and the actual number of cases tried by courts resulting in conviction etc. during last four decades are presented in **Table 4(B)**.

It was observed that the percentage of cases tried to total cases for trial during 2012 to 2014 was around 13% whereas four decades ago i.e. in 1974 this percentage was 27.8. The percentage of cases convicted to total cases tried (conviction rate) during 1974 was as high as 62.7%. The conviction rate declined in subsequent years and it stood at 40.2% in 2013. The conviction rate in respect of total IPC crimes in 2014 improved significantly and stood at 45.1%.

## Chapter-6

# Crime against Children

Generally, the offences committed against children or the crimes in which children are the victims are considered as crime against children. Indian penal code and the various protective and preventive special and local laws specifically mention the offences wherein children are victims. The age of child varies as per the definition given in the concerned Acts and sections but age of child has been defined to be below 18 years as per The Juvenile Justice (Care and Protection of Children) Act, 2000. Therefore an offence committed on a victim under the age of 18 years is construed as crime against children for the purpose of analysis in this chapter.

It is also to be borne in mind that the offences that are analysed in this chapter do not form an exclusive block of offences that are reported in the country. They are included in the IPC/SLL cases already discussed in other relevant chapters. The offences mentioned in this chapter have been culled out from various reported crimes in the country wherein the victims of the offences were children.

It is made clear that revision of proforma would have a great impact on collection of huge data on crime against children. Many recent enactments to curb crime against children effectively have been included in the proforma for collection of data. The gender wise breakup of crime against children has also been a new addition in the proforma. The list of offences under the two broadly categorised offences under the IPC and the Special and Local Acts is as follows

### 1) Crime against children under Indian Penal Code.

- (i) Murder (Section 302 IPC)
- (ii) Attempt to commit murder (Section 307 IPC)\*
- (iii) Infanticide (Section 315 IPC)

## Chapter - 5

### Crime against Women

Although women may be victims of any of the general crimes such as ‘murder’, ‘robbery’, ‘cheating’, etc. only the crimes which are directed specifically against women are characterised as ‘crimes against women’. Various new legislations have been brought and amendments have been made in existing laws with a view to handle these crimes effectively. These are broadly classified under two categories.

#### (1) The crimes under the Indian Penal Code (IPC)

1. Rape (Sec. 376 IPC)
2. Attempt to commit rape (Sec 376/511 IPC)\*
3. Kidnapping & abduction of women (Section 363,364,364A, 366 IPC)
  - 3.1 K&A under section 363 IPC\*
  - 3.2 K&A in order to murder\*
  - 3.3 K&A for ransom\*
  - 3.4 K&A of women to compel her for marriage\*
  - 3.5 K&A for other purposes\*
4. Dowry deaths (Section 304B IPC)
5. Assault on woman with intent to outrage her modesty (Sec. 354 IPC)
  - 5.1 Sexual harassment (Sec.354A IPC)\*
  - 5.2 Assault on woman with intent to outrage her modesty (Sec. 354C IPC)\*
  - 5.3 Voyeurism (Sec. 354D IPC)\*
  - 5.4 Others \*
6. Insult to the modesty of women (Sec. 509 IPC)

  - 6.4 in other places\*
7. Cruelty by husband or his relatives, (Sec. 498A IPC)
8. Importation of girl from foreign country (up to 21 years of age) (Sec. 366 B IPC)
9. Abetment of suicide of women (Sec. 306 IPC)\*

\*\* collected for the first time in 2014.

#### (2) The crimes under the Special & Local Laws (SLL)

Although all laws are not gender specific, the provisions of law affecting women significantly have been reviewed periodically and amendments carried out to keep pace with the emerging requirements. The gender specific laws for which crime statistics are recorded throughout the country are –

- (i) The Dowry Prohibition Act, 1961
- (ii) The Indecent Representation of Women (Prohibition) Act, 1986
- (iii) The Commission of Sati Prevention Act, 1987
- (iv) The Protection of women from domestic Violence Act, 2005\*
- (v) The Immoral Traffic (Prevention) Act, 1956#

# women related crimes only.

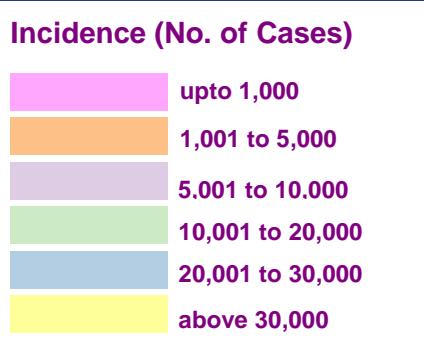

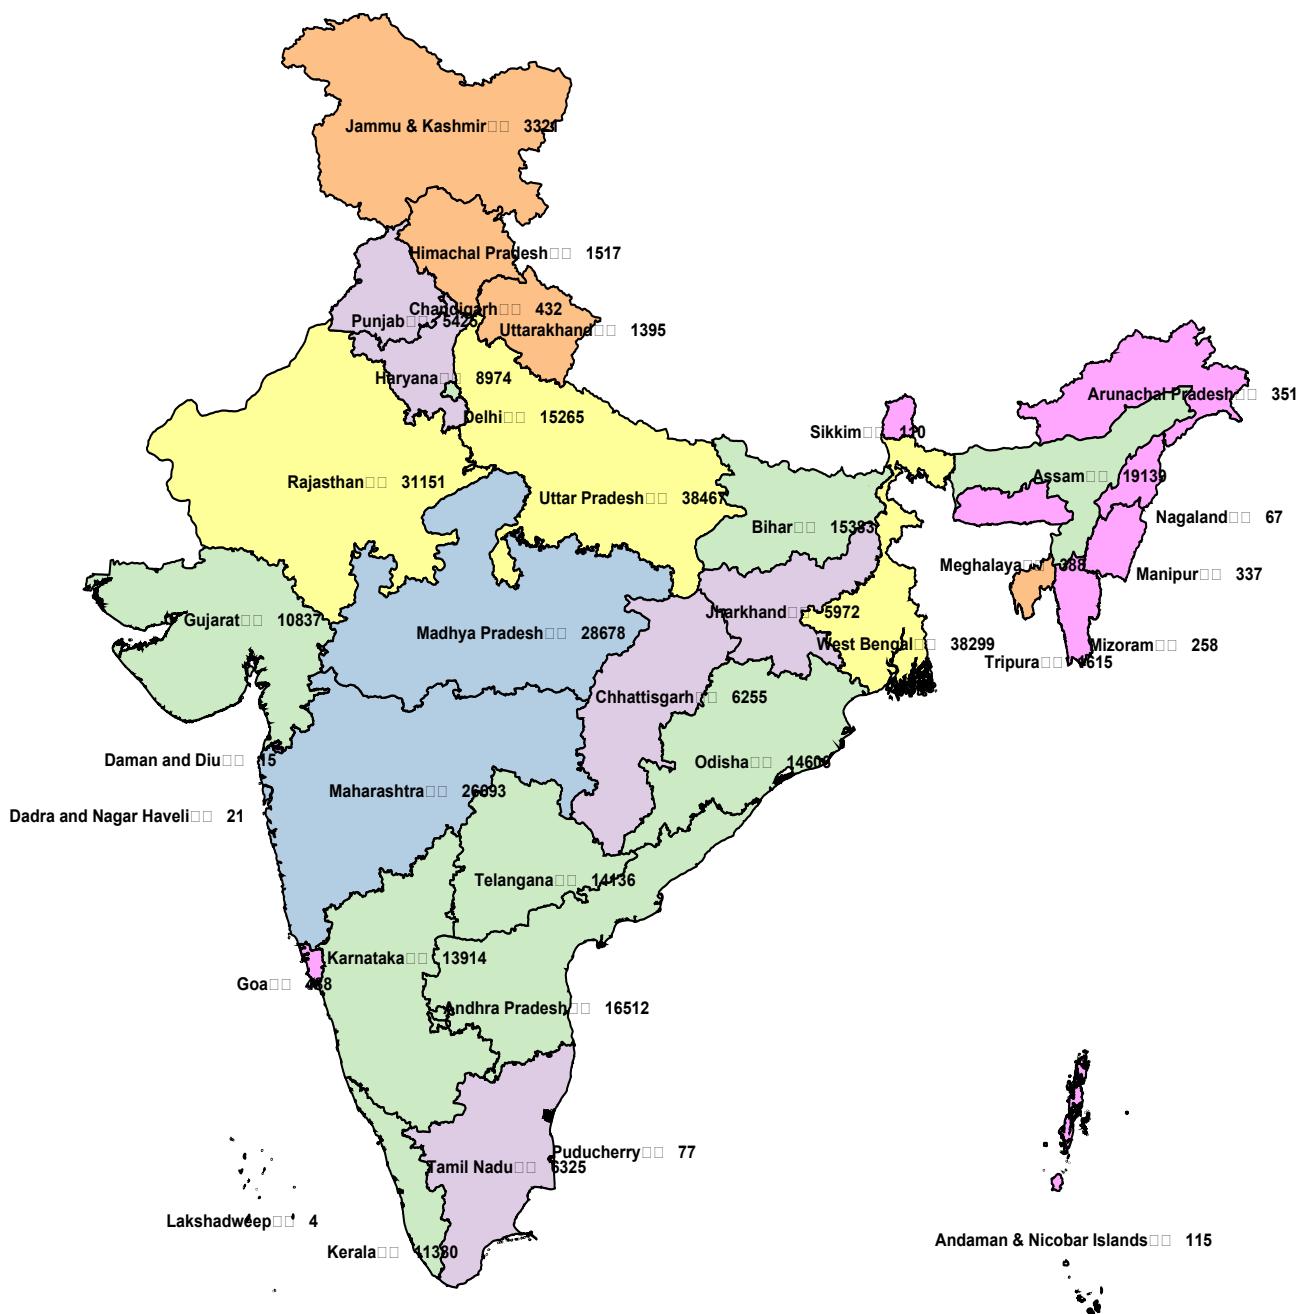

\* collected for the first time in 2014

Number of crime heads under crimes against women have increased from 11 in previous editions to 14 (as stated above) in this edition of the report. In previous edition, figures of the Immoral Traffic (P) Act were considered as part of crimes against women. However, in this edition, data pertaining to crimes committed on women only under this Act have been construed as a part of crime against women. Data have been collected under the revised proformae for ‘Crime in India 2014’.

Apart from above crime heads which are considered as crime against women, some general crimes in which women are victims have also been collected under the revised proformae. Data of the same is published on our website in ‘Additional Tables for CII’.

‘Crime rate’ for crimes committed against women has been calculated using only female population based on mid-year projected female population for the year 2014, as supplied by Registrar General of India/Population Commissioner, MHA.

### Crime head-wise analysis (IPC)

#### Rape (Sec. 376 IPC)

(Incidence- 36,735 Rate- 6.1)

A total of 36,735 cases of rape under section 376 IPC were reported during 2014 (excluding the Protection of Children from Sexual Offences Act, 2012). An increasing trend in the incidence of rape has been observed during the periods 2010 - 2014. These cases have shown an increase of 9.2% in the year 2011(24,206 cases) over the year 2010 (22,172 cases), an increase of 3.0% in the year 2012 (24,923 cases) over 2011, with further increase of 35.2% in the year 2013 (33,707 cases) over 2012 and 9.0% in 2014 (36,735 cases) over 2013. 14.0% of rape cases were reported in Madhya Pradesh (5,076 out of 36,735 cases) followed by Rajasthan (3,759 cases), Uttar Pradesh (3,467 cases), Maharashtra (3,438 cases). Mizoram reported the highest crime rate of 23.7 followed by UT of Delhi at 23.2 as compared to national average of 6.1.

29.6% of the total victims of incest were from the age group of 12 – below 16 years (211 victims) followed by 28.5% in age group 18-30 years (203 victims), 16.1% in age group 16-below 18 years (115 victims), 11.8% in age group 6-below 12 years (84 victims), 9.0% in age group 30-below 45 years (64 victims), 3.2% in age group below 6 years (23 victims), 1.0% in age group 45-below 60 years (7 victims) and 0.8% in age group of above 60 years (6 victims). Thus 89.2% of total incest rape victims were children (below 18 years) (636 out of 713 victims). Some States have not furnished data on children rape reported under the Protection of Children from Sexual Offences Act, 2012, the figures of the same have been given in Chapter-6 separately.

A total of 36,739 cases were registered for 36,968 victims under 'other than incest rapes' during 2014. Madhya Pradesh has accounted for maximum such cases by reporting 5,017 cases followed by 3,700 cases in Rajasthan and 3,416 cases in Uttar Pradesh during 2014. Maximum such victims were from the age group of 18-30 years (16,317 victims). Age group wise details of victims of rape including incest rape is given in Table-5.3.

#### Incest rape

## Chapter-6

# Crime against Children

Generally, the offences committed against children or the crimes in which children are the victims are considered as crime against children. Indian penal code and the various protective and preventive special and local laws specifically mention the offences wherein children are victims. The age of child varies as per the definition given in the concerned Acts and sections but age of child has been defined to be below 18 years as per The Juvenile Justice (Care and Protection of Children) Act, 2000. Therefore an offence committed on a victim under the age of 18 years is construed as crime against children for the purpose of analysis in this chapter.

It is also to be borne in mind that the offences that are analysed in this chapter do not form an exclusive block of offences that are reported in the country. They are included in the IPC/SLL cases already discussed in other relevant chapters. The offences mentioned in this chapter have been culled out from various reported crimes in the country wherein the victims of the offences were children.

It is made clear that revision of proforma would have a great impact on collection of huge data on crime against children. Many recent enactments to curb crime against children effectively have been included in the proforma for collection of data. The gender wise breakup of crime against children has also been a new addition in the proforma. The list of offences under the two broadly categorised offences under the IPC and the Special and Local Acts is as follows

### 1) Crime against children under Indian Penal Code.

- (i) Murder (Section 302 IPC)
- (ii) Attempt to commit murder (Section 307 IPC)\*

## **Chapter-7**

# **Crime Against Persons belonging to Scheduled Castes & Scheduled Tribes**

India is committed to the welfare and development of its people in general and of vulnerable sections of society in particular. Equality of status and opportunity to all citizens of the country is guaranteed by the Constitution of India, which also provides that no individual shall be discriminated against on the grounds of religion, caste or sex, etc. Fundamental rights and other specific provisions, namely, Articles 38, 39 and 46 in the Constitution of India stand testimony to the commitment of the State towards its people. The strategy of the State is to secure distributive justice and allocation of resources to support programmes for social, economic and educational advancement of the weaker sections in general and persons belonging to Scheduled Castes and Scheduled Tribes in particular.

### **Constitutional rights**

The Indian Constitution vide Article 15 lays down that no citizen shall be subjected to any disability or restriction on the grounds of religion, race, caste, sex or place of birth. It also guarantees that every citizen shall have equality of status and opportunity.

The problems of social inequality and class divide in a country like India with heterogeneous groups and sub-groups needs to be recognised and resolved by all available democratic measures including special legislations to deal with particular acts constituting offences against such weaker sections of the society. 'Scheduled Castes' and 'Scheduled Tribes' are two such identified social groups. Article 46 of the constitution of India expressly provides that the State shall promote the educational and economic upliftment of the weaker sections of the society, in particular of SCs & STs with special care and shall protect them from injustice and all forms of exploitation.

### **Legal rights**

Special social enactments have come into force from time to time for SCs and STs in order to uphold the constitutional mandate and safeguard the interests of these sections of the society.

The major legal enactments at the national level are:

- (i) The Protection of Civil Rights Act, 1955
- (ii) The Scheduled Caste/Scheduled Tribe (Prevention of Atrocities) Act, 1989

The Protection of Civil Rights Act, 1955 was enacted in furtherance of Article 17 of the constitution to abolish untouchability and its practice in any form.

The Scheduled Castes/ Scheduled Tribes (Prevention of Atrocities) Act, 1989 was brought into force from 30<sup>th</sup> January 1990 in order to check and deter crimes against persons belonging to SCs/STs by persons belonging to other communities. These enactments have extended the positive discrimination in favour of SCs and STs to the field of criminal law in as much as they prescribe penalties that are more stringent than the corresponding offences under Indian penal code (IPC) and other laws. Special Courts have been established in major states for speedy trial of cases registered exclusively under these Acts.

### **Classification of crimes**

Considering the data requirements of various stakeholders, the classifications of crimes have been revised recently for collection of comprehensive data on crime committed against SCs and STs. The new classification of crimes against persons belonging to SCs & STs

broadly categorized under three major crime heads, namely:-

- (i) Incidents of discriminations against persons belonging to SCs & STs by Non-SCs/STs viz. under the Protection of Civil Rights Act, 1955
- (ii) Atrocities committed against persons belonging to SCs and STs by Non SCs and STs i.e. where SC/ST (Prevention of Atrocities) Act has been applied along with various sections of IPC. Incidents of various sections of IPC viz. murder, grievous hurt, rape etc. along with the SC/ST (PoA) Act.
- (iii) Crime committed against SCs and STs where SC/ST (PoA) Act has not been applied and only IPC sections have been involved.

Besides these three major heads data on following have also been collected under crime against SCs & STs in the year 2014:-

- (iv) The Employment of Manual Scavengers and Construction of Dry Latrines (Prohibition) Act, 1923
- (v) Other SLL crimes

Earlier, data on rape of women belonging to Scheduled Castes and Scheduled Tribe only was collected. In the revised proforma of crime in India, an effort was made to collect more comprehensive data on crime against SC/ST women by collecting data on newly included crime heads namely assault on SC/ST women with intent to outrage her modesty (section 354 IPC) along with further breakup of sub-section 354A IPC (sexual harassment), section 354B IPC (assault or use of criminal force to women with intent to disrobe), section 354C IPC (voyeurism) & section 354D IPC (stalking); insult to modesty of SC/ST women (under section 509IPC) along with incident of such crimes in offices, public transport, other places related to works; etc. Now data on grievous hurt (under section 325, 326, 362A and 326B IPC) only with further sub-sections grievous hurt (under section 325 & 326 IPC), acid attack (section 326A IPC) and attempt to acid attack (Section 326B IPC) have been collected.

The 'Crime Rate' for crimes committed against SCs and STs has been calculated using

the population of SC and ST respectively only, based on The Population Census 2011. Since mid-year projection in respect of SCs & STs population is not available.

## Chapter-11

### Recidivism

The tendency of relapsing into crimes by the criminals is known as Recidivism. A recidivist is a person who relapses into crime again and again. The State, UT and City-wise number of recidivists (past offenders) under IPC crimes during the year 2014 are shown in **Table-11.1**. The share of recidivists among all offenders increased to 7.8% during 2014 as compared to 7.2% in 2013. In absolute terms, the number of past offenders involved in repeat IPC crimes during the year 2014 was 2,95,740 as compared to 2,53,498 in the year 2013 with an increase of 16.7% of such offenders in 2014 over 2013.

Tripura has reported the highest percentage of recidivists (54.0%) among States while Chandigarh has reported the highest percentage of recidivists (49.5%) amongst UTs as compared to the national average of 7.8 %. The year-wise variation of recidivists is shown at **Fig. 11.A.**

Out of total arrestees (37,90,812) during the year 2014, there were as many as 92.2% (34,94,966) new offenders, 6.2 % (2,34,896) were convicted once in the past, whereas 1.3% (47,884) were convicted twice and only 0.3% (12,960) were convicted three times or more.

79.4% (2,34,896) out of the total recidivists (2,95,740) during the year 2014 were those who were convicted once in the past, 16.2% (47,884) were convicted twice, while 4.4% (12,960) were habitual offenders i.e., they were convicted thrice or more in the past, as depicted in **Fig. 11.A.**

The following table shows conviction frequency of recidivists during 2010-2014.

### Arrests and Trials

#### Persons arrested under the IPC cases

A total of 37,90,812 persons were arrested by the police under various IPC crimes during 2014 as against 35,23,577 persons in 2013, showing an increase of 7.6%. Crime head-wise information on the persons arrested under IPC crimes during 2013 and 2014 along with percentage variation in 2014 over 2013 is presented in **Table-12.1**. As many as 14,41,142 persons accounting for 38.0% were arrested for committing crimes other than the specified ones termed as 'other IPC crimes'. Among the specified crimes, the highest arrests were made in cases of 'causing injuries by negligent driving/rash driving' (10.4%) (3,94,004 persons) followed by 'Riots' (8.1%) (3,08,544 persons), 'Theft' (6.8%) (2,59,441 persons), 'Cruelty by husband or his relatives' (6.0%) (2,25,648 persons) and 'Grievous Hurt' (5.0%) (1,88,916 persons). The highest increase in the arrests was observed for cases of 'auto theft' 37.7% (from 57,856 in 2013 to 79,680 in 2014) followed by 'causing death by negligence' 34.2% (from 90,904 in 2013 to 1,22,011 in 2014). Highest decline was observed in 'importation of girls from foreign country' 27.6% (from 58 in 2013 to 42 in 2014). Since some crime heads have been modified, *inter-alia*, some crime heads newly added in 2014, therefore the comparison for these crime heads cannot be made in 2014 vis-à-vis 2013.

Comparison of crime rate vis-à-vis arrest rate (number of arrests per one lakh population) and number of arrests per case for the crimes reported under various sections of IPC during 2014 are presented in **Table-12 (A)**. Arrest rate for rape, attempt to commit rape, criminal trespass/burglary, theft, forgery, insult to the modesty of women, cruelty by husband or his relatives, causing death by negligence and causing injuries due to negligent driving/rash driving were reported the less arrest rate as with the respective crime rate.

The arrest rate at all-India level increased by 4.6% in the year 2011 over 2010

(from 248.5 in 2010 to 259.9 in 2011), 1.4% in 2012 over 2011 (from 259.9 in 2011 to 269.5 in 2012), 1.3% in 2013 over 2012 (from 269.5 in 2012 to 286.8 in 2013) and 6.2% in 2014 over 2013 (from 286.8 in 2013 to 304.7 in 2014). Hence a rising trend was observed during last five years (2010-2014). A total of 1.3 arrests have been made per one case reported under IPC during 2014.

The crimes head-wise, sex-wise and age-group wise break-up of persons arrested for IPC crimes during 2014 is presented in **Table-12.2**.

The female persons arrested under various sections of IPC crimes accounted for 10.2% only.

The maximum number of persons were arrested under the age-group of 18 yrs & above-below 30 yrs (16,87,493 persons) accounting for 44.5% followed by 30 yrs. & above – below 45 yrs (38.2%) (14,47,582 persons), 45 yrs & above – below 60 yrs. (14.8%) (5,62,308 persons) and 60 yrs and above (1.4%) (50,863 persons). A total of 42,566 juveniles (below 18 yrs.) were apprehended under the IPC crimes during 2014.

A total of 33,44,831 persons were charge sheeted during the year 2014 out of which the highest was recorded under 'causing injuries negligent driving/ rash driving' (3,68,485 persons) followed by 'riots' (2,84,733 persons) and 'theft' (2,03,279 persons). A total of 1,79,68,824 persons were reported under trial during the year 2014. 23,06,926 persons in whose cases trial were completed and out of which 8,58,382 were convicted, 13,77,233 were acquitted and 71,311 persons were discharged by court during the year 2014.

## **Persons Arrested under IPC Crimes State/UT-wise Percentage Distribution during 2014**

**Figure 12.1**

Uttar Pradesh (4,81,178) has reported the highest arrestees under the IPC crimes accounting for 12.7% of total such arrestees followed by Madhya Pradesh (3,99,382 i.e. 10.5%) and Maharashtra (3,38,308 i.e. 8.9%) during the year 2014.

The details on the crime head wise, sex wise and age group wise number of persons arrested and disposal of persons by police and courts under IPC crimes during the year 2014 are presented in **Table – 12.2, 12.3 and 12.4**.

### Persons arrested under SLL crimes

A total of 48,04,382 persons were arrested under the SLL crimes, which was 55.9% of total arrestees, during 2014 as compared to 44,67,963 persons during 2013 accounting for an increase of 7.5% during 2014 over 2013. There are new acts which were included in the revised proforma of **Crime in India – 2014**. The details on crime-head wise, sex wise and age group wise arrests under SLL crimes during the year 2014 are presented in **Table-12.2**.

Out of the total persons arrested under SLL crimes the maximum persons were

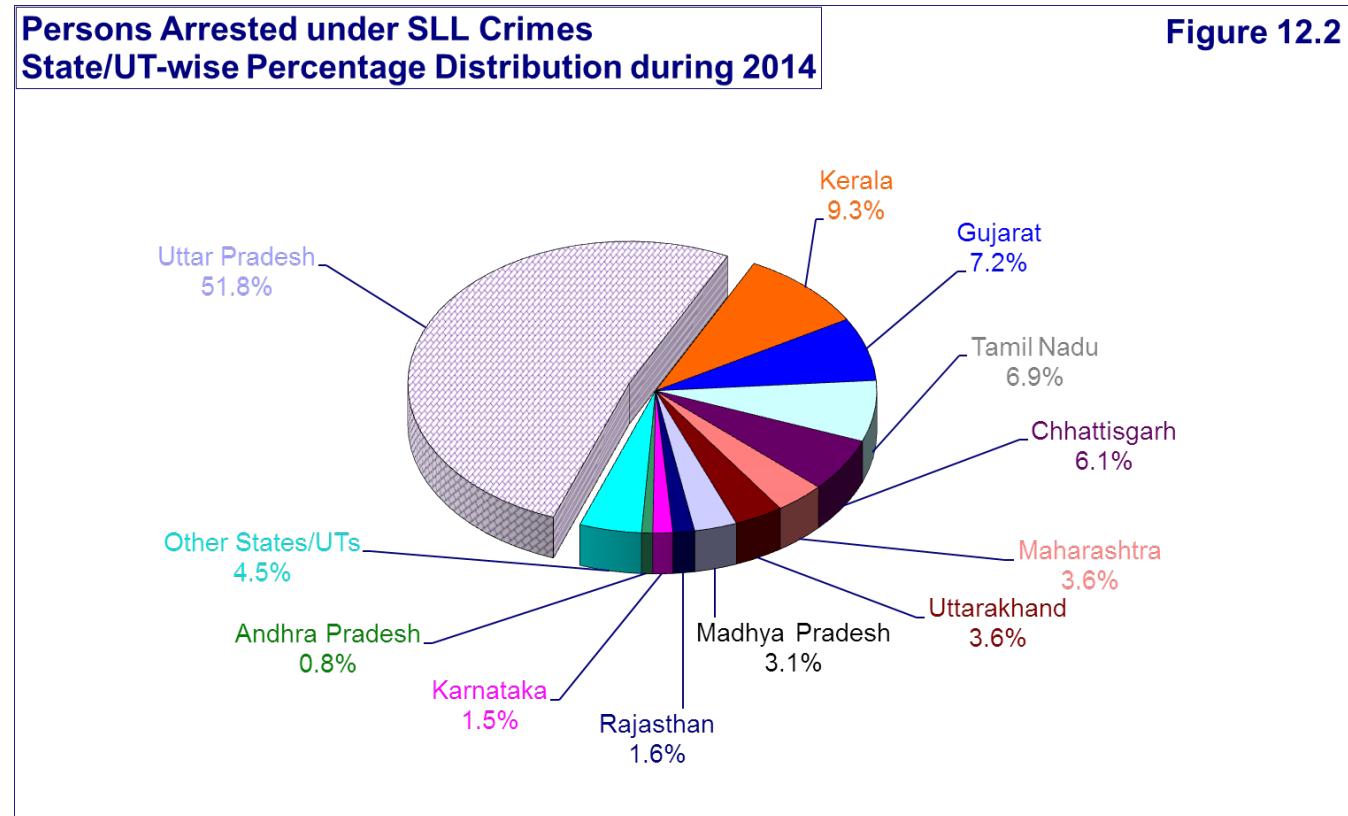

arrested under the age group of 18 yrs & above - below 30 yrs. ( 25,35,202 persons) which accounted for 52.8% of the total persons arrested under SLL crimes followed by 30 yrs. & above – below 45 yrs (34.9%) (16,75,457 persons), 45 yrs & above – below 60 yrs. (11.5%) (5,51,679 persons) and 60 yrs and above (0.8%)(36,380 persons). A total of 5,664 juveniles (below 18 yrs.) were apprehended under the SLL crimes during 2014.

Uttar Pradesh (24,87,949) has reported the highest arrestees under the SLL crimes accounted for 51.8% of total arrestees followed by Kerala (4,46,244 i.e. 9.3%) and Gujarat (3,46,601 i.e. 7.2%) during the year 2014.

Crime head-wise arrestees in SLL cases indicates that the un-categorized 'Other SLL cases' accounted for 72.1% (34,68,132) of the total arrestees in the country during 2014. The highest share of arrestees among the specified crimes was under 'Prohibition Act' (10.4%) (5,00,205 persons) followed by 'Gambling Act' (7.6%) (3,65,556 persons), 'Excise Act' (4.1%) (1,98,816 persons). Sex-wise, age-group wise and crime head-wise

**Persons Arrested under SLL Crimes  
State/UT-wise Percentage Distribution during 2014**

**Figure 12.2**

information on persons arrested during 2014 are presented in **Table-12.2**.

The percentage of female persons arrested under SLL crimes at all-India level was 3.0% (1,43,744 out of 48,04,382) against 10.2% for IPC crimes. Gujarat has reported the highest number of female arrestees with (64.7%) (92,982 females out of 1,43,744 females) followed by Tamil Nadu (14.4%) (20,664 out of 1,43,744 females).

Age-group wise and sex-wise distribution of persons arrested under various IPC and SLL cases are given in **Table-12.2**. Among the total (IPC+SLL) arrested persons (85,95,194) those falling under the age-group 18 yrs. & above – below 30 years accounted for (49.1%) (42,22,695 persons) followed by age-group 30 yrs. & above – below 45 years accounting for 36.3% (31,23,039 persons). This confirms the age-group profile of arrestees observed during the previous year reflecting drift of more young persons (18 yrs. – below 30 years) in crimes. The juveniles apprehended accounted for just 0.6% in the total arrests (IPC + SLL) made in 2014. Girls' share was 3.3% among juveniles apprehended.

### **Disposal of persons arrested under IPC crimes by police**

The crime head-wise details on the disposal of persons arrested are presented in **Table-12.3**. A total of 37,90,812 persons were arrested during the year 2014. For 37,93,771 total cases for investigation by police under various sections of IPC offences, (**Table-4.2**), Police could file charge-sheets against 33,44,831 persons (88.2% of total arrestees under IPC crimes). Out of the total persons who were arrested, 5.6% of arrested persons (2,10,722) were either released or freed by police or magistrate before trial for want of evidence or any other reasons and 8.4% persons (3,18,970) remained under custody and 23.8% persons (9,02,579) were on bail during the stage of investigation at the end of the year as police investigation could not be completed in their cases. The lowest level of charge-sheeting in disposal of arrested persons was witnessed in cases of Offences promoting enmity between different groups (43.4%) (281 out of 648) as compared to the national average of 88.2% (33,44,831 out of 37,90,812) for all IPC crimes.

### **Disposal of persons arrested under IPC crimes by courts**

As many as 1,79,68,824 persons (including those from previous years) were awaiting trials (under trial) in various criminal courts in the country during 2014 (an increase of 1.7% over the last year (1,76,60,316 persons) as per information presented in **Table-12.4**). ## Chapter-13

### Custodial Crimes

The cases registered for deaths in police custody have been discussed in this chapter. The details on escapees from police custody and trials for such violations have also been discussed in this chapter.

The information on deaths in custodial crimes are recorded under the following categories:

- (i) Deaths in police custody / lock up (of persons remanded to police custody by court).
- (ii) Deaths in police custody/lock up (of persons not remanded to police custody by court)
- (iii) Reasons of custodial deaths in police custody.
- (iv) Escapes from police custody.

#### Deaths in Police Custody

##### A: Remanded to Police Custody by Court

There were 32 deaths in police custody or disappearance of persons from police custody who were remanded to such custody by the Court during the year 2014. The highest such deaths or disappearance of persons have been reported in Andhra Pradesh (16). 30 autopsies were conducted for 32 such deaths or disappearance of persons during the year. 14 Judicial enquiries were ordered for these deaths in police custody in which 11 judicial

enquiries were conducted with maximum such enquiries were conducted in Andhra Pradesh (7). A total of 5 cases were registered against police personnel in connection with custodial deaths (one each from Madhya Pradesh, Maharashtra, Meghalaya, West Bengal and UT of Delhi). A total of 15 policemen were charge-sheeted during the year (6 from UT of Delhi, 5 from Maharashtra and 4 from Madhya Pradesh). However, no policeman was convicted for such offences during the year 2014 [Table-13.1].

##### B: Not Remanded to Police Custody by Court

A total of 61 deaths in police custody or disappearance of persons from police custody, who were not remanded to police custody by court, were reported during 2014, showing a decline of 37.1% in 2014 over 2013 (97 deaths or disappearance). Majority of such incidents were reported in Maharashtra (17) followed by Uttar Pradesh (8), Tamil Nadu and Gujarat (7 each). These four States together have accounted for 63.9% (39 out of 61 deaths) in country during 2014.

For 61 such custodial deaths or disappearance of persons, 60 autopsies were conducted during the year 2014. A total of 28 and 14 magisterial enquiries and judicial inquiries were ordered/conducted respectively during 2014, maximum such enquiries were

## Chapter-14

# Police Firing and Lathi-charge

This chapter deals with those incidents in which police had to resort to firing and lathi charge in discharge of their official duty. The Bureau for the first time, collected segregated data on police firing and police lathi- charge and causalities incurred therein mainly under events namely - i) riots control, ii) self- defence, iii) to effect arrest and iv) against other events. In earlier publication aggregated data on police firing and police lathi-charge was collected.

Police had to resort to firing on 176 occasions during the year 2014 as compared to 684 occasions during 2013, 548 occasions during 2012, 482 occasions during 2011, 1,421 occasions during 2010, showing a mixed trend during the years from 2010 to 2014 (a decrease of 74.3% during 2014 over 2013, 24.8% during 2013 over 2012, 13.7% during 2012 over 2011 and a decrease of 66.1% during 2011 over 2010). During the year 2014, 41 civilians and 16 police personnel were killed in these incidents whereas 104 civilians and 210 police personnel were injured. The State/UT-wise details of incidence, deaths and injuries due to police firing are given in **Table-14.1** and **Table-14.2**.

### Occasions forcing police to open fire

The occasions necessitating police firing were largely related 'to effect arrest' (67 out of 176 instances) which accounted for 38.1% of total police firing followed by unclassified 'on others occasions' (50 instances), 'for self-defense' (33 occasions) and 'for riots control' (26 occasions) during 2014.

Uttar Pradesh (62) has recorded the highest incidence of police firing followed by Maharashtra (36), Andhra Pradesh & Gujarat (16 each) and Rajasthan & Telangana (7 each) among States/UTs.

The highest number of injuries to civilians in police firing was reported in Telangana (38) followed by Manipur (21), Bihar (8), Karnataka (7) and Chhattisgarh (6). These

four States together accounted for 76.9% of total civilians injured in police firing. Highest number of injuries to police personnel in police firing was reported from Maharashtra (49), followed by Uttar Pradesh (38), Andhra Pradesh (22), Bihar, Odisha & Telangana (17 each) and Chhattisgarh (6) during 2014. More police personnel were injured during the year 2014 (210) than the civilians (104) while more civilians (41) were killed than police personnel (16) during the year 2014 in police firing.

In Maharashtra 11 civilians lost their lives in police firing during 2014. The highest casualties of civilians as well as police personnel were reported under 'others occasion of police firing' (18 civilians and 12 police personnel) followed by police firing in self-defence (12 civilians and 2 police personnel) and police firing in order to control rioting (7 civilians).

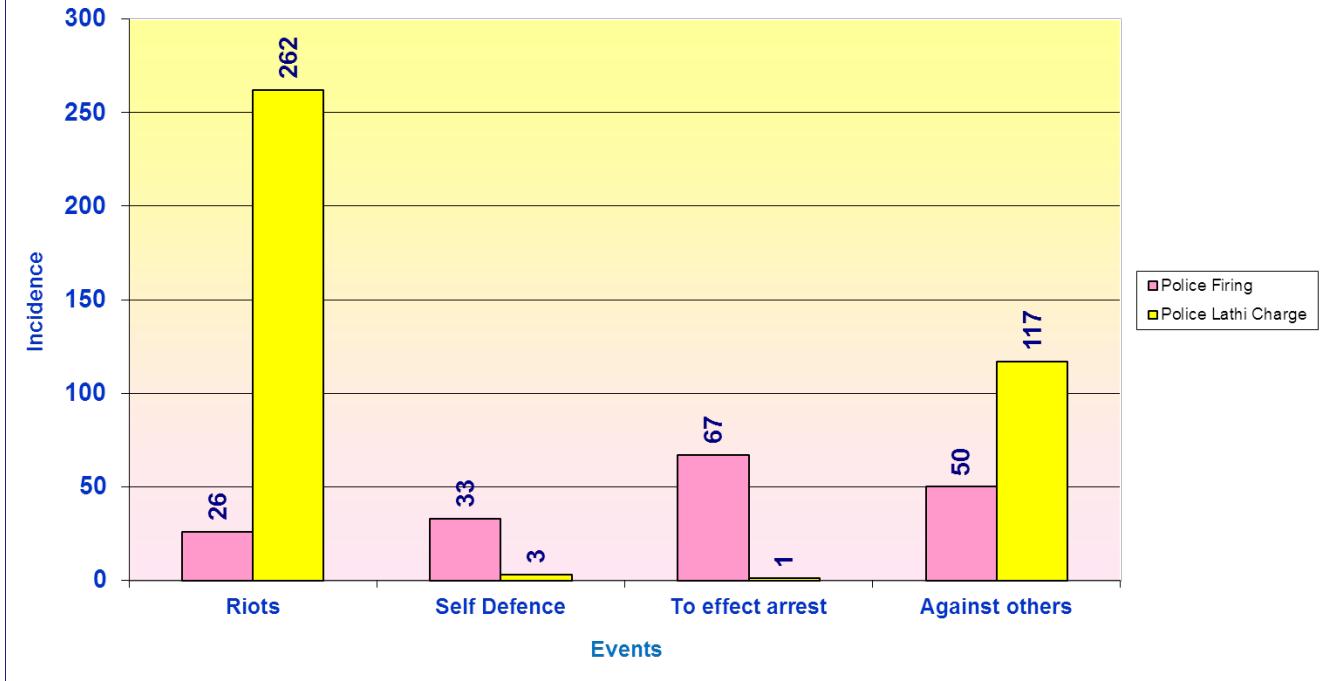

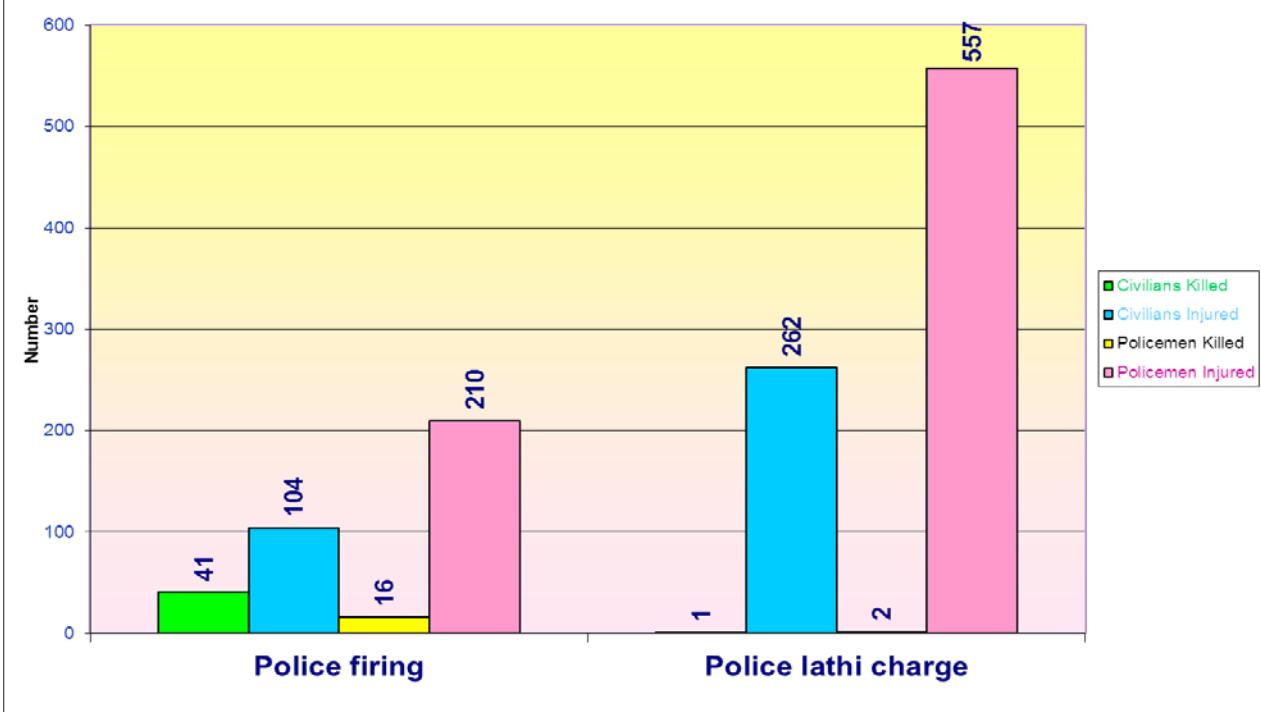

### Occasions forcing police to lathi charge

Police had to resort to lathi charge on 382 occasions and out of 382 instances of police lathi charge, a total of 383 cases were registered during the year 2014. During the year 2014, one civilian and two police personnel were killed in these incidents whereas 262 civilians and 557 police personnel were injured. The State/UT-wise details of incidence, deaths and injuries due to lathi chage are given in **Table-14.1** and **Table-14.3**.

In most of the instances, police had to resort to lathi charge on 261 occasions to control riots followed by 117 occasions in unclassified category 'against others'.

Jammu & Kashmir with 304 occasions has recorded the highest incidents of police lathi-charge followed by Uttar Pradesh (28 cases), Maharashtra (10 cases) and West Bengal (9 cases) during 2014.

## Chapter-15

### Police and Civilians Casualties

A large number of policemen lose their lives or limbs while performing duty every year - fighting insurgents, militants, and criminals or during controlling the mob in a law and order situation. Many times, civilians also have lost their lives or injured in various occasion like riots, commission of crimes like robbery or dacoity, by terrorists/militants etc.

The State/UT wise information relating to police personnel killed or injured on duty during 2014 is presented in **Table-15.1** and **15.2** and the age group wise natural deaths of police personnel and suicides committed by these personnel is given in **Table-15.3**. Since 2014, NCRB has also started collecting data on civilian killed or injured in various incidents like bomb explosion, by terrorists/extremists etc. which is presented in **Table-15.4**.

A total number of 3,313 police personnel died (comprising 2,417 natural deaths, 731 deaths on duty and 165 suicidal deaths) during the year 2014 as compared to 3,714 deaths in the year 2013, showing a decline of 10.8% over the previous year.

#### Police personnel killed on duty

The casualties include civil as well as the armed police personnel of various States / UTs who sacrificed their lives while performing their duty. The police casualties (731) while on duty decreased by 1.2% during 2014 as compared to previous year (740). Out of 731 police personnel killed on duty, 48.8% of total causalities of police personnel (412 out of 731) were reported in only 6 States namely Uttar Pradesh (95), Maharashtra (82), Punjab and Tamil Nadu (64 each), Gujarat (55) and Rajasthan (52). Majority of the police casualties (83.0%) (607 out of 731) were due to 'accidents' followed by 'anti-terrorist/ extremists operations' and by 'other criminals' which accounted for 7.1% (52 out of 731) and 6.4% (47 out of 731) respectively of such deaths.

1.9% (14 out of 731) of police personnel were killed in anti- Left Wing Extremists (LWE) Operations.

It was observed that total 607 police personnel were killed while on duty 'in accidents'. Highest casualties were reported from Uttar Pradesh (82) followed by Maharashtra (69), Punjab (60) and Tamil Nadu (59) under this head during the year. 52 causalities were reported in Anti Terrorist/Extremist operations from 10 States, the highest number of casualties was in Chhattisgarh (18), and Jammu & Kashmir (13). Total 47 police personnel were killed by 'other criminals'. Maximum casualties were reported from Rajasthan (11 out of 47). Anti LWE Operations which accounted for 14 casualties were reported from 3 States only, 11 causalities from Maharashtra, 2 causalities from Jammu & Kashmir and one causality from Jharkhand.

Rank wise analysis of police causalities reveals that out of 731 police personnel killed on duty, 8 were 'Other Gazetted Officers', 47 were upper subordinates (Inspectors - 9 and Sub-Inspectors - 38) and 673 were lower subordinates (Assistant Sub- Inspectors - 68, Head Constables -178 and Constables - 427). *The details are given in **Table-15.2**.*

#### Police personnel injured on duty

3,234 police personnel of various ranks (2,964 from States and 270 from the Union Territories) sustained injuries while performing their duties during the year. State / UT-wise details of police personnel injured by type of duty/operation are given in **Table-15.1**.

Out of the total 3234 police personnel injured on duty, 56.2% of total causalities of police personnel (1819 out of 3234) was reported in only 6 States namely Kerala (445), Jammu & Kashmir (360), Maharashtra (285), Uttar Pradesh (251), Rajasthan (242), and UT of Delhi (236).

The maximum police injuries 24.5% (330 out of 1349) in Jammu & Kashmir was by riotous mob. The incidents of police personnel injury by other criminals were highest Kerala 22.2% (231 out of 1039). Uttar Pradesh 32.6% (29 out of 89) reported highest injuries of police personnel on account of anti dacoity & other raids during the year. The highest injuries of police personnel in anti-terrorist/extremist operations were reported in Chhattisgarh 38.1% (32 out of 84) at All India level. The police personnel injuries due to accident were

gazetted officers.

The cause-wise comparative details of police personnel killed or injured on duty during last 5 years (2010- 2014) are presented in **Table-15 (A)**. It is observed that incidents of police casualties (both fatal and non-fatal) has shown a mixed trend during last 5 years, wherein 'accidents' and 'anti-terrorist/ extremist operations' were the main cause of deaths of police personnel.

The Information Technology (IT) Act, 2000, specifies the acts which are punishable. Since the primary objective of this Act is to create an enabling environment for commercial use of I.T., certain omissions and commissions of criminals while using computers have been included in the amended Act in 2008. Several offences having bearing

- i) Offences registered under the Information Technology Act 2000.
- ii) Offences under the IPC related to cyber crimes
- iii) Offences under the Special and Local Laws (SLL) related to cyber crimes

## Cyber Crimes

(Incidence: 9,622 Persons Arrested: 5,752)

A total of 9,622 cases were reported under the cyber crimes (which includes Information Technology Act, offences under related sections of IPC and offences under Special and Local Laws (SLL)) as compared to 5,693 cases registered during the previous year (2013) which shows an increase of 69.0% over the previous year. In 2014, data on SLL cases related to cyber crimes have also been collected. Maharashtra (1,879 cases out of 9,622 cases) has reported the highest number of such crimes accounting for 19.5% of total cyber crimes followed by Uttar Pradesh (1,737 cases out of 9,622 cases) accounting for 18.1% and Karnataka (1,020 cases out of 9,622 cases i.e. 10.6%).

Furthermore, a total of 5,752 persons were arrested under such crimes during 2014 as compared to 3,301 persons arrested during the previous year (2013) registering 74.3% increase over the previous year. Uttar Pradesh (1,223) has reported the maximum number of persons arrested under such crimes.

The details of cases reported and persons arrested under cyber crimes during 2014 can be seen under **Table – 18.1**.

### Cyber crimes – cases of various categories under IT Act, 2000

Information on the cases registered under IT Act which was considered as cyber crimes at all-India level is presented in **Table – 18(A)**.

A total of 7,201 cases were registered under IT Act during the year 2014 as compared to 4,356 cases during the previous year (2013), showing an increase of 65.3% in 2014 over 2013. 77.0% (5,548 cases) of the total 7,201 cases under IT Act were related to computer related offences (under section 66A, 66B, 66C, 66D and 66E of IT Act) followed by 10.5% (758 cases out of 7,201 cases) under publication/transmission of obscene/sexually explicit content (under section 67A, 67B and 67C of IT Act). A total of 2,246 cases under IT Act were pending for investigation from previous year out of total cases for investigation (9,401

cases) during 2014. A total of 6,269 cases remained pending for investigation at the end of the year. A total of 1,451 cases were charge-sheets during 2014. A total of 1,097 cases were pending for trial from previous year, in which maximum number of cases were committed under IT-computer related offences (under section 66A to 66D) (770 cases) during 2014. In 198 cases trials were completed, 52 cases were convicted and 2,316 cases remained pending for trial at the end of the year during 2014. The details of disposal of cases of cyber crimes under IT Act are shown under **Table - 18.2 and 18.3**.

73.8% of the persons arrested (4,246 out of 5,752) are in cases relating to IT Act, 2000. Out of such persons arrested, IT-computer related offences (under section 66A to 66E) shows the maximum number of persons arrested (3,131 out of 4,246 persons) accounting for 73.7% followed by IT-Publication/transmission of obscene/sexually explicit content(under section 67A to 67C) numbering 491 out of 4,246 persons accounting for 11.6% during the year 2014.

The age-wise profile of persons arrested in Cyber Crime cases under IT Act, 2000 showed that 52.7% of the offenders were in the age group 18 yrs. – below 30 years (2,238 out of 4,246 persons) and 39.1% of the offenders were in the age group 30 yrs. – below 45 years (1,660 out of 4,246 persons). 67 juvenile offenders (below 18 years) were apprehended under IT Act during 2014. A total of 1,931 persons were charge sheeted during the year 2014. A total of 65 persons were convicted and 165 persons were acquitted under such cases of cyber crimes under IT Act during 2014. Further details on the age group wise, persons arrested and sex-wise disposal of persons arrested under the IT Act by police and courts may be seen in **Table -18.4, 18.5 and 18.6**.

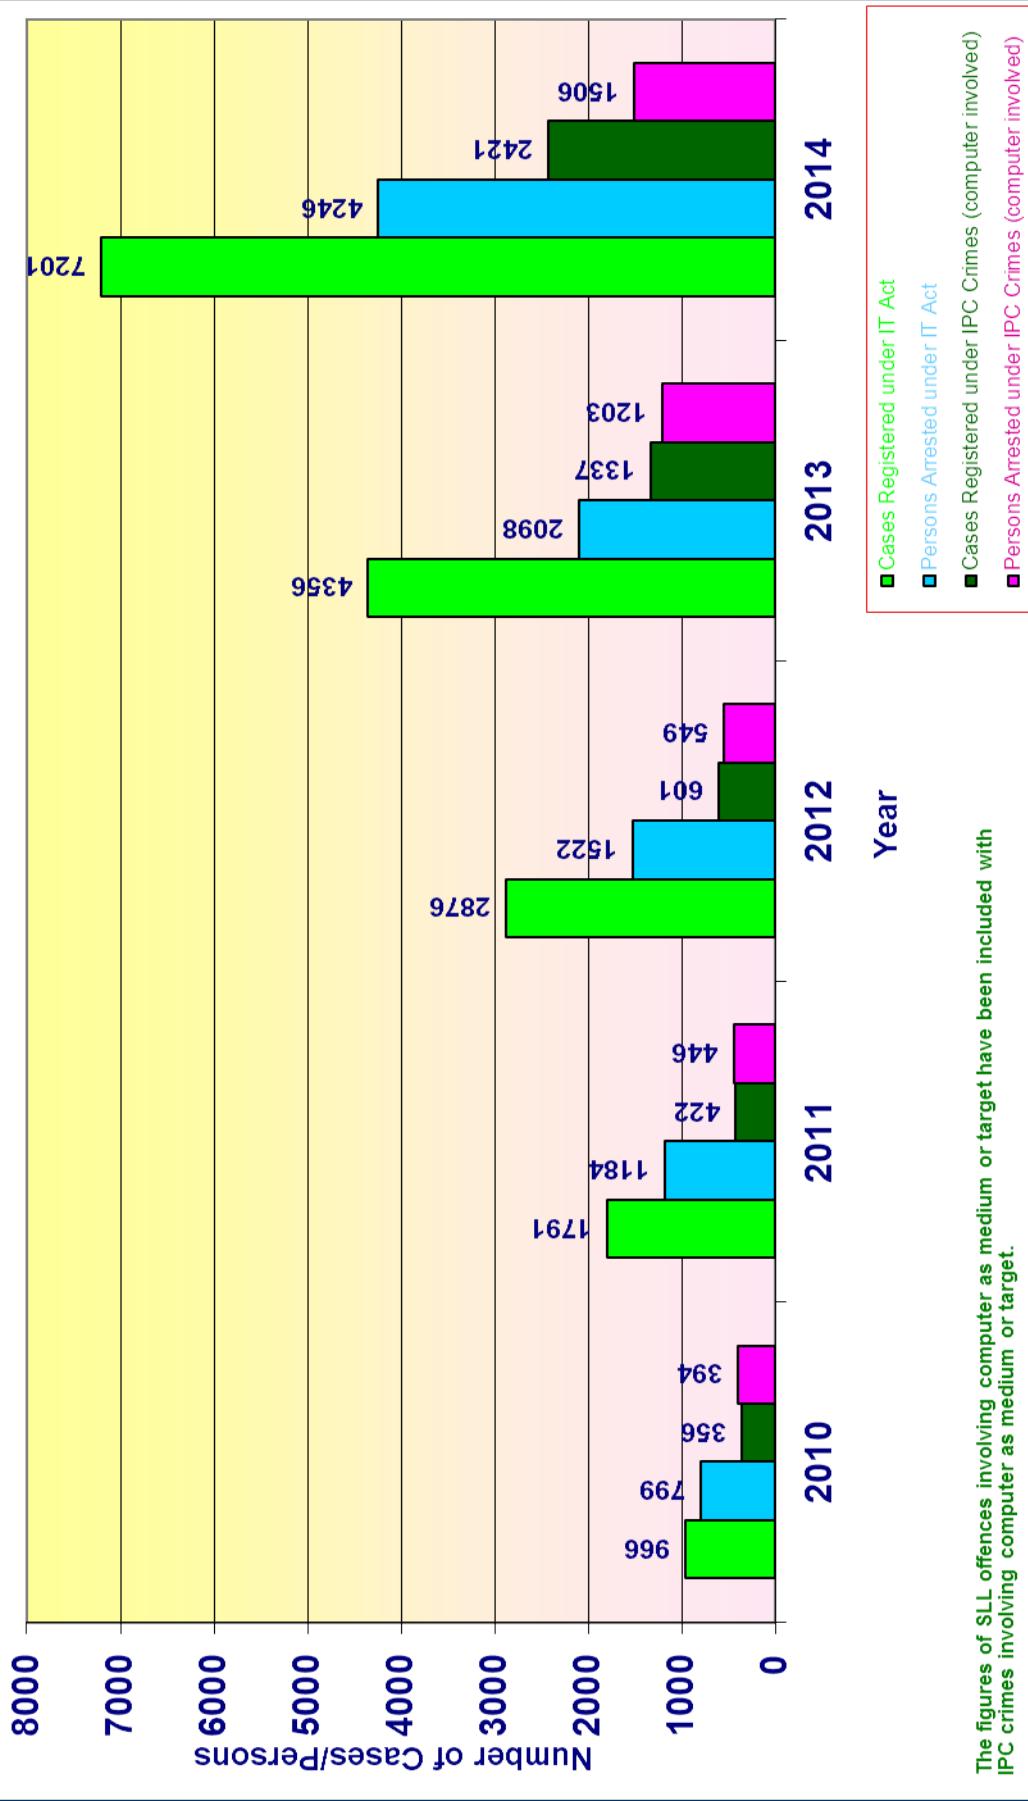

### Incidences of cyber crimes registered under IPC

Information on the cases registered under various sections of IPC which were considered as cyber crimes at all-India level is presented in **Table – 18(B)**.

### Cyber crimes – cases of various categories under IPC Section

A total of 2,272 cases were registered under various sections of IPC during the year 2014 as compared to 1,337 such cases during 2013, thus showing an increase of 69.9% over the previous year. 49.1% (1,115 cases) of the total 2,272 cases registered under different sections of IPC were related to cheating followed by 2.8% (63 cases out of 2,272 cases) under forgery. A total of 367 cases under different sections of IPC were pending for investigation from previous year out of total cases for investigation (2,632 cases) during 2014. A total of 1,682 cases were pending for investigation at the end of the year. In 558 cases, charge-sheets were submitted during 2014. Data thefts under IPC crimes show highest pendency rate (85.7%) followed by forgery cases (82.7%) during 2014. A total of 423 cases were pending for trial from previous year, in which maximum number of cases were reported under cheating (143 cases) followed by counterfeiting (21 cases) during 2014. In 17 cases trials were completed, 6 cases ended in conviction and 963 cases remained pending for trial at the end of the year during 2014. The details of disposal of cases of cyber crimes under different sections of IPC are shown under **Table - 18.2 and 18.3**.

21.3% of the persons arrested (1,224 out of 5,752) in cases relating to different sections of IPC. Out of 1,224 persons arrested under IPC cases related to cyber crimes, maximum persons have been arrested under cheating (335 out of 1,224 persons) accounting for 27.4% of total such persons arrested under IPC crimes followed by 58 persons arrested under forgery cases accounting for 4.7% during the year 2014.

The age-wise profile of persons arrested in cyber crime cases under different sections of IPC showed that 44.4% of the offenders were in the age group 18 – 30 years (544 out of 1,224 persons) and 41.7% of the offenders were in the age group 30 - 45 years (510 out of 1,224 persons). 76 juvenile (below 18 years) were apprehended under cyber crimes related IPC cases during 2014. A total of 840 persons were charge-sheeted during the year 2014. A total of 7 persons were convicted and 7 persons were acquitted under such cases of cyber crimes under different sections of IPC during 2014. Further details on the age group wise persons arrested and sex-wise disposal of persons arrested under cyber crimes(under different sections of IPC) by police and courts may be seen in **Table -18.4, 18.5 and 18.6**.

## Cyber crimes – cases of various categories under Special and Local Laws (SLL)

Data on cyber crimes related Special and Local Laws (SLL) like the Copyright Act, the Trade Marks Act etc. have been collected in 2014. Section wise data have been collected under these Acts.

A total of 149 cases were registered under various sections of SLL during the year 2014. 79.2% (118 cases) of the total 149 cases registered under different sections of SLL were related to the Copyright Act, 1957. A total of 66 cases under different sections of SLL were pending for investigation from previous year out of total cases for investigation (215 cases) during 2014. A total of 98 cases were pending for investigation at the end of the year. In 107 cases, charge-sheets were submitted during 2014. Cases under section 63 of the Copyright Act has highest pendency rate (50.0%) during 2014. A total of 674 pending cases brought forward for trials during 2014, in which maximum cases were reported under the Copyright Act (671 cases). In 103 cases trials were completed, 18 cases ended in conviction and 678 cases remained pending for trial at the end of the year during 2014. The details of disposal of cases of cyber crimes under different sections of IPC are shown under **Table - 18.2 and 18.3**.

4.9% of the persons arrested (282 out of 5,752) are in cases relating to different Acts & sections of SLL. Out of such persons arrested, the maximum number of persons arrested numbering 167 out of 282 persons were in cases under the Copyright Act accounting for 59.2% followed by other SLL offences (115 out of 282 persons) during the year 2014.

The age-wise profile of persons arrested in Cyber Crime cases under different sections of SLL showed that 46.5% of the offenders were in the age group 18 – 30 years (131 out of 282 persons) and 43.6% of the offenders were in the age group 30 - 45 years (123 out of 282 persons). 6 juveniles (below 18 years) were apprehended under SLL crimes during 2014. A total of 227 persons were

charge sheeted during the year 2014. A total of 23 persons were convicted and 104 persons were acquitted under such cases of cyber crimes under different sections of SLL during 2014. Further details on the age group wise persons arrested and sex-wise disposal of persons arrested under cyber crimes (under different sections of SLL) by police and courts may be seen in **Table -18.4, 18.5 and 18.6**.

## Motives of Cyber Crimes

Most of the cyber crimes were reported for greed/financial gain accounting for 18.0% (1,736 out of 9,622 cases) followed by insult to the modesty of women (6.2%) (599 cases), fraud/illegal gain (5.1%) (495 cases), sexual exploitation (3.7%) (357 cases) and personal revenge/settling scores (3.0%) (285 cases).

State/UT wise and motives wise details of cyber crimes are presented in **Table 18.7**.

## Profile of accused in Cyber Crimes

Data on profiles of persons arrested under cyber crimes have been collected as foreign nationals and Indian citizens. A total of 8 foreign nationals and 5,744 Indian nationals were arrested under cyber crimes. Among foreign nationals, most of the persons (3) were cracker/hacker and have been arrested in West Bengal. Similarly among Indian nationals, most of the persons arrested under cyber crime were 'neighbours / friends & relatives' with 7.4% of total such incidents (427 out of 5,752 persons) followed by students with 5.6% (320 persons), professional computer geeks/hackers/crackers with 3.6% (207 persons) and employees/disgruntled employees 3.3% (191 persons).

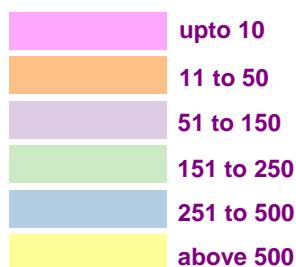

State/UT wise details on profile of persons arrested or accused of cyber crime are presented in **Table 18.8**.

# Crime in Railways

## Introduction

As per Rail Budget 2014 -15, Indian Railways serve nearly 23 million passengers every day therefore the security and safety of these passengers is of paramount importance to the system.

The maintenance of law & order in railways and railway premises is the responsibility of concerned State police whereas the security of passengers and their belongings in the running trains and railway premises is the shared responsibility of the Railway Protection Force (RPF) and the Government Reserve Police (GRP). The responsibility of security of railway passengers, passenger area and property has been vested with the Railway Protection Force by RPF Amendment Act, 2003. The cases of crime in railways are reported to, registered and investigated by the Government Railway Police (GRP). The investigation and prosecution of crime under the Indian Penal Code as well as sabotage related cases under the Railways Act (Sec. 150 to 152) are the responsibility of the State police. The enforcement of Railways Property (Unlawful Possession) Act, 1966 and the Railways Act, 1989 excluding sec. 150 to 152 has been entrusted to Railway Protection Force whereas the Indian Penal Code, all other special and local laws and maintenance of law and order remain with Government Railway Police and State governments concerned.

The responsibility for arrest and prosecution for minor offences under the Indian Railways Act (which affect the passengers and the train operations) have been vested with the Railway Protection Force.

Though the incidents of specific crimes on railways discussed below are part and parcel of the general crimes discussed in **Chapter-1** of the report however, separate analysis in the extent of these crimes both as reported under Indian Penal Code and the

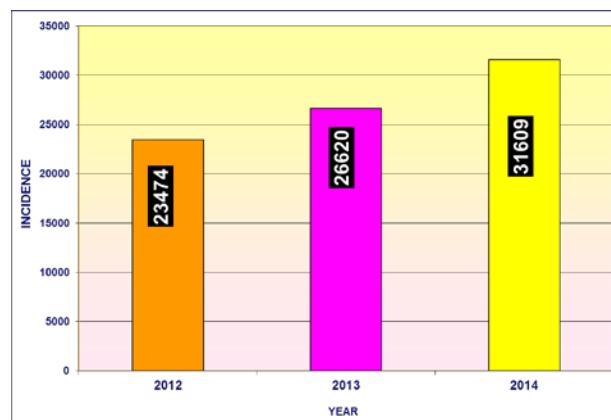

Indian Railways Act, 1989 has been made in the chapter.

## Trend of crimes in Railways

22 out of 29 States namely, Andhra Pradesh, Assam, Bihar, Chhattisgarh, Gujarat, Haryana, Himachal Pradesh, Jammu & Kashmir, Jharkhand, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Odisha, Punjab, Rajasthan, Tamil Nadu, Telangana, Tripura, Uttar Pradesh & West Bengal and only Delhi among UTs have notified Government Railway Police Posts.

The State-wise incidents of IPC crimes reported by GRP during 2014 is presented in **Table-19.1**. Incidence of IPC crimes reported by GRP have continuously shown a rising trend over last three years.

**Chart-19(A): Incidence of IPC crimes reported by Govt. Railway Police (GRP) during 2012-2014**

A total of 23,474, 26,620 and 31,609 IPC crimes were reported by GRPs during 2012, 2013 and 2014 respectively at the national level reflecting an increase of 13.4% in 2013 over 2012 and an increase of 18.7% in 2014 over 2013.

Bihar (2.7% increase in 2013 over 2012 and 6.1% in 2014 over 2013), Gujarat (2.3% in 2013 over 2012 and 23.0% in 2014 over 2013), Karnataka (40.7% in 2013 over 2012 and 3.8% in 2014 over 2013), Kerala (5.7% in 2013 over 2012 and 38.0% in 2014

over 2013), Madhya Pradesh (21.1% in 2013 over 2012 and 10.2% in 2013 over 2012), Maharashtra (17.2% in 2013 over 2012 and 17.4% in 2014 over 2013), Rajasthan (10.9% in 2013 over 2012 and 48.3% in 2014 over 2013) and Uttar Pradesh (49.9% in 2013 over 2012 and 23.7% in 2014 over 2013) have shown an increasing trend during the last 3 years. The State/UT-wise comparative incidence of IPC crimes as reported to Government Railway Police (GRP) during the years 2012 to 2014 are presented in **Tables-19(A)**.

Among IPC crimes, maximum cases were reported under theft (23,231 cases) accounting for 73.4% followed by 3.7% under robbery (1,161 cases) and 1.0% under murder (309 cases). A total of 265 cases of kidnapping & abduction and 191 cases of grievous hurt were reported by GRP during 2014. A total of 44 rape cases were also reported by GRP during 2014.

17.6% of IPC crimes as reported by GRP were reported in Maharashtra (5,585 cases out of 31,609 cases) followed by 16.3% in Uttar Pradesh (5,158 cases), 11.9% in Madhya Pradesh (3,778 cases), 7.6% in Bihar (2,423 cases), 5.7% in Delhi UT (1,816 cases) and 5.4% in Andhra Pradesh (1,713 cases) during 2014.

#### Cases reported under Indian Railways Act, 1989

It is worth mentioning that the responsibilities for arrest and prosecution of minor offences under the Railways Act (which affect the general passengers and the train operations) have been vested with the Railway Protection Force by amending the Railway Protection Force Act, 1957 and the Railways Act, 1989 which came into force from 1<sup>st</sup> July 2004.

An attempt has been made to analyze crimes reported under The Indian Railways Act, 1989 during 2012 to 2014. The State/UT-wise details are presented in **Table-19.2**.

The commission of crimes under the Indian Railways Act reported a rising trend during 2012 - 2014 with 144 cases, 166 cases and 287 cases reported during these years respectively, showing an increase of 15.3% and 72.9% during 2012 over 2011 and during 2014 over 2013 respectively.

States/UTs wise trend of such incidents show that maximum increase in cases reported under the Indian Railways Act during the year 2014 over 2013 was in Uttar Pradesh at 1466.7% (from 9 cases in 2013 to 287 cases in 2014), 150% in Rajasthan (from 4 cases in 2013 to 10 cases in 2014) and 100% increase in Gujarat (from 2 cases in 2013 to 4 cases in 2014).

#### Persons arrested under the Indian Railways Act, 1989

A total of 260 persons were arrested under the Indian Railways Act during 2014. 60.0% of arrestees were reported in Uttar Pradesh alone (156 out of 260) followed by 30 persons arrested in Assam and 15 persons arrested in Telangana [**Table-19.3**].

#### Disposal of cases under Indian Railways Act by police

The details of disposal of IPC crimes and SLL crimes are presented in **Chapter-4**. 69.0% (300 out of 435 cases) cases under The Indian Railways Act were investigated by police, of which only 68.0% (204 cases out of 300 cases in which investigation completed) were charge-sheeted. The charge-sheeting rate (cases charge-sheeted out of total true cases) for crimes under Indian Railways Act stood at 68.0% as against 85.9% for all SLL crimes reported in the country. Details of disposal by police may be seen in **Table-4.3**.

#### Disposal of cases under Indian Railways Act by courts

As many as 2,498 cases out of 6,587 cases under the Indian Railways Act were tried in various courts in the country during the year 2014 with 36.5% disposal by courts. The

conviction rate for such crimes stood at 54.2% (1,354 cases convicted out of 2,498 cases in which trials were completed at the national level. However, 61.4% cases (4,053 out of 6,587 cases) were pending for trials at the end of the year 2014.

### Property stolen/taken away from Railways

The details of property stolen/taken away by place of occurrence including railways have been discussed at length in **Chapter-8** (Property stolen and recovered).

### Dacoity in Railways

A total of 75 cases of dacoity in railways were reported accounting for 1.0% of total 4,395 cases of dacoity reported in the country during 2014 in which properties worth ₹74.3 lakh were taken away out of total ₹26,508.4 lakh of properties stolen / taken away in all dacoities reported in the country during 2014 [**Table-8.5**].

### Robbery in Railways

A total of 726 cases of robbery in railways were reported accounting for 1.9% of total 38,071 cases of robbery reported in the country during 2014 in which properties worth ₹397.2 lakh were taken away out of ₹33,568.3 lakh of total properties stolen / taken away in all robbery cases in the country during 2014. The percentage share of properties taken away in robberies in railways to total robberies reported in the country during 2014 was 1.2% [**Table-8.5**].

### Criminal trespass/Burglary in Railways

A total of 91 cases of burglary in railways were reported accounting for 0.1% of total 1,14,646 cases of burglary reported in the country during 2014 in which properties worth ₹56.3 lakh were stolen / taken away out of total ₹1,04,106.7 lakh of properties stolen / taken away in burglary cases reported in the

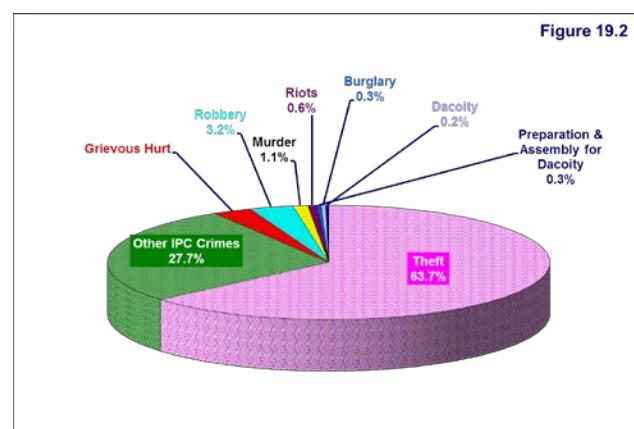

country during 2014 [**Table-8.5**].

### Theft in Railways

A total of 21,839 cases of theft in railways were reported accounting for 4.8% of total 4,40,915 cases of thefts reported in the country during 2014. Properties worth ₹8,274 lakh were stolen / taken away out of total ₹2,59,243.3 lakh of properties stolen / taken away in all thefts reported in the country during 2014. The percentage share of stolen properties by thefts in railways was reported as 5.0% as compared to properties stolen in all thefts cases in the country [**Table-8.5**].

Among the property crimes reported in railways, the share of theft was reported as highest at 73.7% followed by criminal trespass/burglary (19.2%), robbery (6.4%) and dacoity (0.7%) during 2014.

**Chart-19.2: Percentage of incidence of various IPC crimes reported by GRP during 2014**

Similarly, the percentage share of value of stolen properties in these property crimes in railways, loss of property due to theft was also higher at 61.2% followed by criminal trespass/burglary (24.6%), robbery (7.9%) and dacoity (6.3%) [**Table-8.5**].

# Crime Against Senior Citizens

### Introduction

The Maintenance and Welfare of Parents and Senior Citizens Act, 2007 define senior citizens as the Indian citizens who have attained the age of 60 years or above. As per the Population Census 2011, elderly persons or senior citizens were nearly 1024.6 lakh population. For the first time an effort has been made by the Bureau to analyze the types and patterns of 'Crime Against Senior Citizens' under this exclusive chapter. The Bureau has collected data on crimes against senior citizens under various sections of IPC for this edition under the revised proforma of '**Crime in India**'.

### Crime against senior citizens

(Incidence: 18,714, Rate 18.3)

A total of 18,714 cases of IPC crimes against senior citizens were reported during 2014. Out of 18,714 IPC crimes under crime against senior citizens, maximum cases were reported under cheating (1,567 cases) followed by robbery (1,184 cases), murder (1,115 cases) and grievous hurt (1,069 cases), contributing 8.4%, 6.3%, 6.0% and 5.7% respectively of total such crimes during 2014.

Against 18,714 cases, a total of 25,136 persons (consisting of 23,667 male and 1,469 female) were arrested under crime against senior citizens during 2014.

State/UT wise trends reveal that maximum cases of crime against senior citizens were reported in Maharashtra accounting for 21.3% (3,981 cases out of 18,714 cases) followed by Madhya Pradesh at 18.4% (3,438 cases), Tamil Nadu 11.3% (2,121 cases) and Andhra Pradesh 9.9% (1,852 cases) during 2014.

A large number of persons arrested for crime against senior citizens were reported in Madhya Pradesh (5,556) followed by Maharashtra (4,283), Tamil Nadu (2,454), West Bengal (2,419), Andhra Pradesh (1,821)

and Chhattisgarh (1,155) during 2014.

During 2014, nearly 18 elderly persons were victims of various IPC crimes out of every one lakh elderly population. A crime rate of 18.3 was observed at all India level. ### Offences Against the State

#### Introduction

Broadly speaking, all crimes are against the state, or government, insofar as it disturbs the public order. But there are some criminal activities that are directed against the existence of the state itself viz. treason, sedition, and rebellion. Treason is the crime of betraying a nation by acts considered dangerous to its security like selling military secrets to a foreign power, giving aid to the enemy in time of war etc. Sedition refers generally to the offence related to conduct or speech inciting people to rebel against the authority of a state or government. Rebellion is the attempted overthrow of a government; if it succeeds it is a coup, or revolution. In addition to these crimes treated as offences against the State, the Bureau also included offences promoting enmity between different groups as '**Offences Against the State**' as it disturb tranquility in the society and very prejudicial to national integration.

Offences against the State (under sections 121, 121A, 122, 123 & 124-A IPC) and offences promoting enmity between different groups (under sections 153A & 153 B IPC) are construed as '**Offences Against the State**'. The Bureau has started collecting data on such offences under the revised proformae of '**Crime in India**' since 2014.

# Environment Related Offences

### Introduction

Human beings are dependent on their environment, as are all other organisms. Any change in the environment even in distant parts of the planet affects living things and their environment elsewhere. All organisms are dependent on each other in many ways. Destruction of one organism in the environment can lead to the destruction of other organisms. Thus, it is imperative to conserve the country's forests, protect wildlife and prevent & control water & air pollution.

In this context, the Bureau has brought out this chapter exclusively on environment related offences to study and analyse the pattern of such offences

### Patterns of cases reported under environment related offences

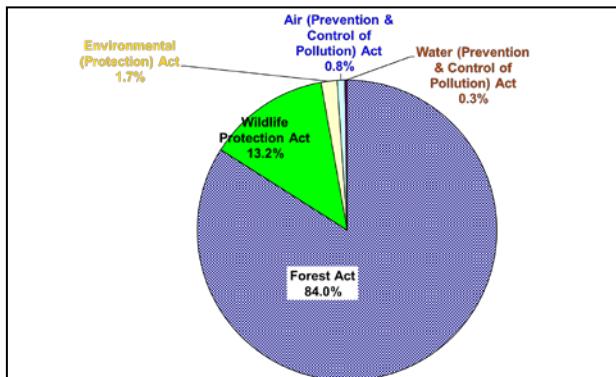

A total of 5,835 cases were reported under environment related offences during 2014. Maximum cases of environment related offences were reported in Rajasthan (2,927 out of 5,835 cases) accounting for 50.2% of total such cases followed by Uttar Pradesh (27.4%) (1,597 cases), Karnataka (4.3%) (249 cases), Himachal Pradesh (2.6%) (150 cases), Jharkhand (2.5%) (148 cases), Maharashtra (2.3%) (136 cases) and Andhra Pradesh (2.0%) (117 cases).

Out of 5,835 cases reported under environment related offences, 4,901 cases were reported under the Forest Act, representing 84.0% of total such cases followed by the Wildlife Protection Act (770 cases), Environment (Protection) Act (101 cases), the Air (Prevention & Control of Pollution) Act (48 cases) and the Water (Prevention & Control of Pollution) Act (15 cases).

Majority of cases registered under the Forest Act and Wildlife Protection Act were in Rajasthan with 2,666 cases and 219 cases respectively followed by Uttar Pradesh with

1,442 cases and 149 cases respectively during 2014.

**Chart-22(A): Distribution of various offences under environment related offences during 2104**

## Crime Against Foreigners

### Introduction

A total of 76,79,099 foreigners (including 33,99,272 foreigners on tourist visa) visited India during 2014 as compared to 69,67,601 in 2013, showing an increase of 10.21%. Last five years figures, as published in 'Immigration Control & Measures in India - 2014' by Central Foreigners Bureau, Bureau of Immigration ,MHA, clearly indicate the rising trends in arrival of foreigners. Thus it is imperative to study the safety and security of visiting foreigners. In this context, the Bureau has made an effort to analyse patterns of crime against foreigners, *inter-alia*, foreign tourists. The Bureau has started collecting data on crimes committed on foreigners including foreign tourists since 2014 under the revised proforma of '**Crime in India**'.

A total of 486 cases of crimes against foreigners were reported in the country of which 384 cases were under crime against foreign tourists during 2014, constituting 79.0% of total crime against foreigners. Among 486 cases of crime against foreigner, majority of cases were reported in Delhi (164 cases) followed by Goa (73 cases), Uttar Pradesh (66 cases), Maharashtra (59 cases), Rajasthan (36 cases) Karnataka (14 cases) and Bihar (13 cases), these eight States together accounted for 87.4% of total such cases reported in the country (425 out of 486 cases).
