M E S S A G E

It gives me immense pleasure to see the report 'Crime in India' for the year 2009 being brought out by the National Crime Records Bureau (NCRB). This is an annual publication presenting detailed information on various aspects of crime and criminal administration in the country.

Crime is an area of increasing concern not only in our country but globally. The effect of crime may be varied in nature. Criminals are constantly adopting new techniques and methodology and are developing new networks that transcend national boundaries. This is a challenge for the law enforcement agencies, policy makers, social scientists and other stakeholders of the criminal justice system. Detailed information on various aspects of crime are needed to properly analyse the phenomena and plan effective preventive and other intervention strategies. This annual publication of NCRB aims to fulfill the data requirements of various stakeholders. It is the principal reference for crime statistics in India.

I will urge the State Government and UT Administrations and Heads of various law enforcement agencies to send data pertaining to year 2010 to NCRB by the month of May next year so that the report for the year 2010 may be brought out by June 2011.

FOREWORD

'Crime in India' is an annual publication of the National Crime Records Bureau. This publication contains detailed statistical information on the crime scenario of the country. The present edition pertains to the year 2009 and is 57th in the series which started in the year 1953.

Crime is an integral part of human society and information on different aspects of crimes and criminals is required to analyse the trends and design effective intervention strategies to prevent and combat crime in the society. This annual publication of NCRB meets this requirement of policy makers, police personnel, media, researchers, NGOs and other stakeholders of criminal justice system. The information has been presented in different chapters with a view to facilitate easy reference of relevant data. With its detailed information contents, this publication has been the principal reference document on the concerned subjects. The information contained in the publication has been found particularly useful in preparing replies to Parliament Questions relating to various Ministries.

In order to cater to the requirements of the users of our data in a better manner, we have digitised all the previous editions of the publication and made them available on our website <http://ncrb.gov.in>. I hope this initiative will be of immense help to our data users.

I am grateful to the heads of Police of all States and UTs for their cooperation in sending the requisite data to NCRB. It has been our constant endeavour to bring out the report within the shortest possible time after the end of the reference year so that the data is available at the earliest to the various stakeholders. I, therefore, request heads of all the States and UTs to take personal interest and kindly ensure that the data relating to the year 2010 is sent to NCRB by May 2011 so that the 2010 edition of the publication may be brought out by June 2011.

I take this opportunity to record my appreciation of the hard work done by the officers and staff of the Statistical Branch of the Bureau in collecting and compiling the data and bringing out this report.

I would appreciate if the readers could kindly send their valuable suggestions to us in the feedback form attached at the end of this report to further improve the content and quality of the publication.

- Caste-wise break-up of Police Personnel has not been furnished by Madhya Pradesh and Jharkhand.

- The total cognizable crime under IPC in general has been rising as compared to previous years (except in 1954 when it declined by 7% as compared to 1953) by 6% in 1976 as compared to 1975; by 4% in 1955, 1993 and 2003 each as compared to 1954, 1992 and 2002 respectively; by 3% in 1975 as compared to 1974; by 2% each in 1960, 1963, 1968, 1969 and 1982 as compared to 1959, 1962, 1967, 1968 and 1981 respectively.

Categorywise Cognizable Crimes During 2005-2009

CHAPTER - 1

EXECUTIVE SUMMARY

Introduction

The Criminal Procedure Code (Cr.P.C.) divides all the crimes into two categories:

- (i) Cognizable - Sec.2(c) CrPC
- (ii) Non-cognizable - Sec.2(l) CrPC

Cognizable Crimes

A cognizable offence or case is defined as the one which an officer in-charge of a police station may investigate without the order of a magistrate and effect arrest without warrant. The police has a direct responsibility to take immediate action on the receipt of a complaint or of credible information in such crimes, visit the scene of the crime, investigate the facts, apprehend the offender and arraign him before a court of law having jurisdiction over the matter. Cognizable crimes are broadly categorised as those falling either under the 'Indian Penal Code (IPC)' or under the 'Special and Local Laws (SLL)'.

Non-Cognizable Offence

Non-Cognizable crimes are defined as those which can not be investigated by police without the order of a competent magistrate. Police does not initiate investigation in non-cognizable crimes except with magisterial permission. First schedule of the Cr.P.C. gives the classification of the offences of the IPC into cognizable & non-cognizable

categories.

The various crimes that are being registered and investigated by different law enforcement agencies are broadly grouped under the following categories for Statistical Information System.

Broad classification of crimes under the Indian Penal Code (IPC)

- i) **Crimes Against Body:** Murder, Its attempt, Culpable Homicide not amounting to Murder, Kidnapping & Abduction, Hurt, Causing Death by Negligence;
- ii) **Crimes Against Property:** Dacoity, its preparation & assembly, Robbery, Burglary, Theft;
- iii) **Crimes Against Public Order:** Riots, Arson;
- iv) **Economic Crimes:** Criminal Breach of Trust, Cheating, Counterfeiting;
- v) **Crimes Against Women:** Rape, Dowry Death, Cruelty by Husband and Relatives, Molestation, Sexual Harassment and Importation of Girls;
- vi) **Crimes Against Children:** Child Rape, Kidnapping & Abduction of Children, Procurement of minor girls, Selling/Buying of girls for Prostitution, Abetment to Suicide, Exposure and

Complaints Received by Police

The total number of complaints received by police whether oral, written, distress call or the ones initiated suo-moto by police have been collected since 1999 in order to assess the quantum of work load of police. The year-wise number of such complaints *vis-à-vis* actual number of cognizable crimes registered by Police are presented in Table-1.1.

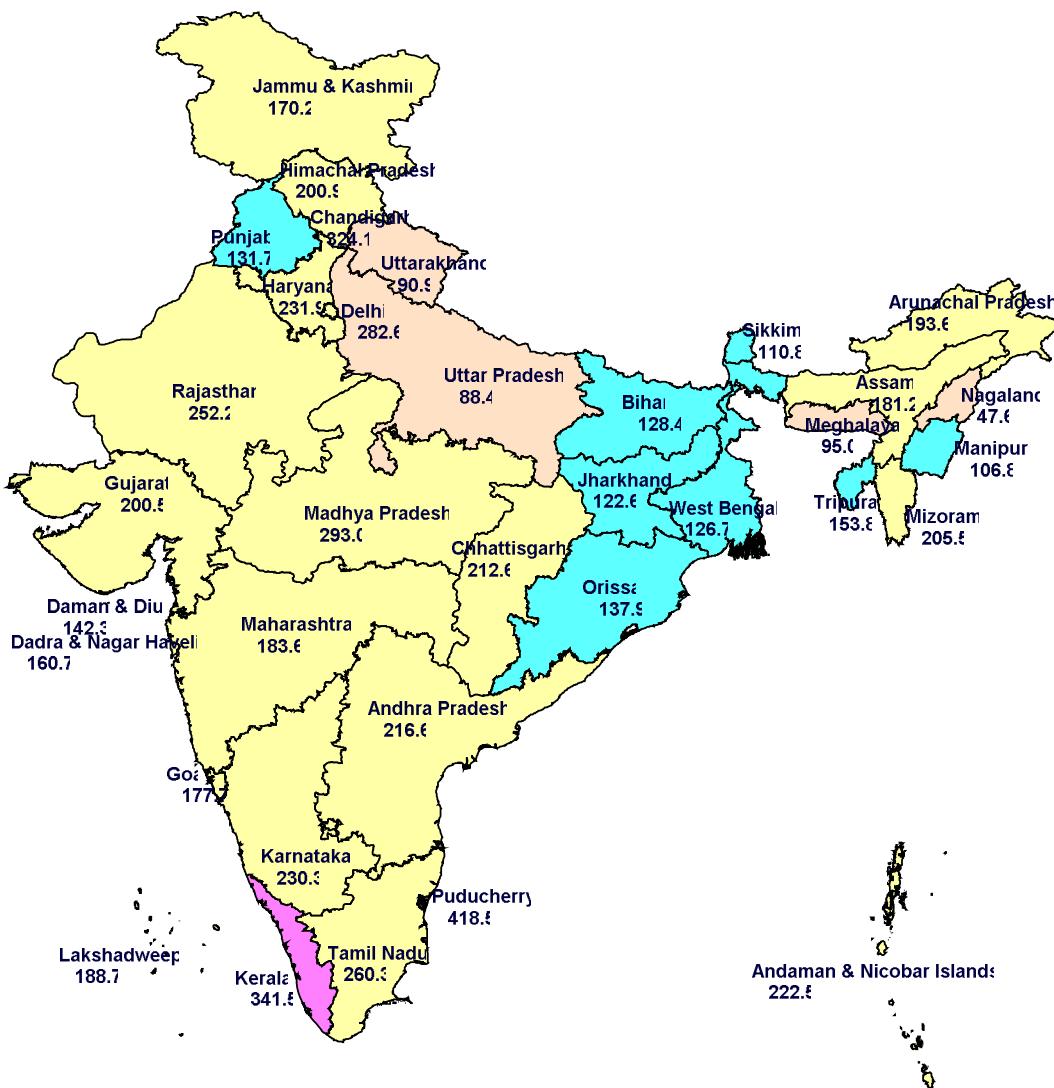

A total of 1,03,48,097 complaints were received by police in the country during the year 2009 as compared to 81,60,624 complaints received during 2008 representing an increase of 26.8% over 2008. 29.7% of these were written complaints, 12.1% were oral complaints, 38.2% complaints were initiated by Police and 19.9% were distress calls reported over phones (No.100). It is observed that nearly 64.5% of these complaints were registered as cognizable offences (66,75,217 out of 1,03,48,097).

Cognizable crimes

The incidence of cognizable crimes in the country during the decade 1999 to 2009 is presented in Table-1.2. As many as 66,75,217 cognizable crimes were reported in the country during 2009 comprising 21.21 lakh cases under the IPC and 45.53 lakh cases under the SLL. The ratio of IPC to SLL crimes varied from 1:1.76 in 2005 to 1:2.15 in 2009. In terms of percentage, 68.2% of total cases (IPC + SLL) during 2009 were accounted for by Special Acts

& Local Laws and the rest of the cases (31.8%) by the Indian Penal Code.

The rate of total crimes (IPC + SLL) was 570.8 in 2009 showing an increase of 25.23% over 2005 and an increase of 10.83% over 2008.

The IPC crimes reported a higher growth rate of 20.2% as compared to the fast pace of population growth of 18.5% in the decade (Table-1.2).

Crime Rate (IPC + SLL) (Crime Rate...570.8)

Population is one of the important factors influencing incidence of crime. A positive correlation between the growth in incidence of crime and the population of the country has been observed. A number of socio-economic factors, besides population, could influence the crime situation at a particular place. The present analysis of crime rate is restricted to the influence of population only, therefore, the analysis of crime rate of a particular State/UT shouldn't be construed as the sole indicator of crime position of that particular State/UT in relation to others.

Population

Mid-year estimated population is used for calculating crime rate (i.e. number of crimes per one lakh of population). The estimated population of the country as on 1st July, 2009 is 11,694 lakhs as compared to 8,866 lakhs in the year 1999. The population of the country in the decade (1999-2009) has increased by 18.5% with an annual exponential growth rate of 1.7%.

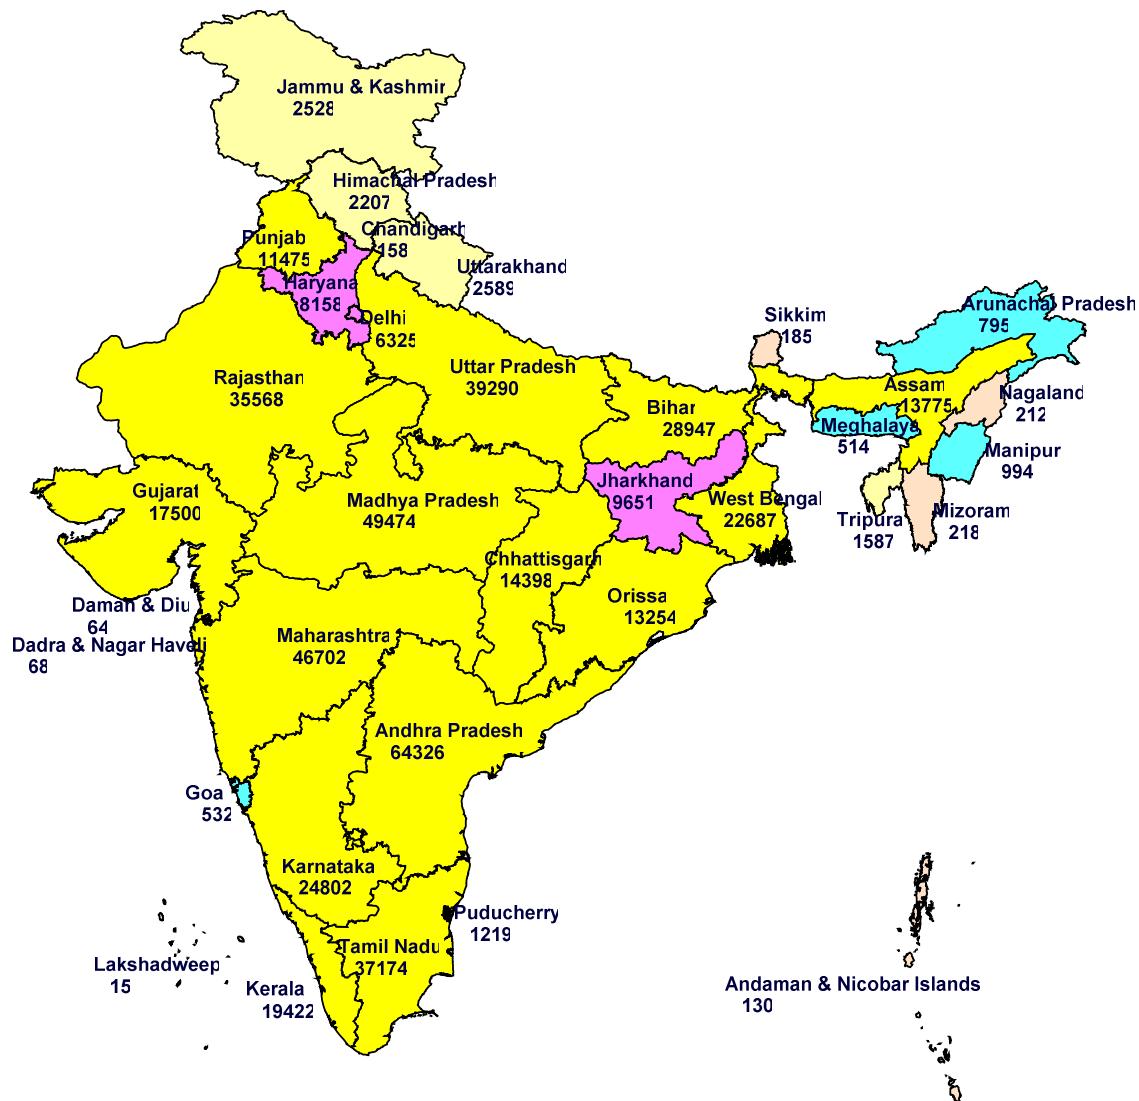

Crime Incidence (IPC + SLL) (Incidence...66,75,217)

Total incidence of crime gives an absolute picture of the crime situation in the country or the State. Comparative figures over a period of time indicate an increase or decrease in the incidence of crime requiring appropriate crime control efforts by the State police.

The crime rate defined as the 'number of crimes' per 1,00,000 population is universally taken as a realistic indicator since it balances the effect of growth in population. The rate of total cognizable crimes in the country which showed a decreasing trend during 2002-2003 (from 526.0 in

2002 to 514.4 in 2003) rose to 555.3 in 2004 and declined to 455.8 in 2005 and further to 455.7 in 2006. However, it rose to 504.5 in 2007, 515.0 in 2008 and further to 570.8 in 2009. The crime rate has increased by 10.8% in 2009 as compared to 2008. The sudden drop in crime rate from 555.3 in 2004 to 455.8 in 2005 may be attributed to the exclusion of certain non-cognizable crimes by Kolkata Police in 2005 data, which were being included inadvertently under the crime-head 'Other SLL crimes' prior to 2005. *The crime rate in respect of IPC crimes has decreased marginally from 181.5 in 2008 to 181.4 in 2009 and that for SLL crimes has increased by 16.8% from 333.4 in 2008 to 389.4 in 2009.*

Crime Incidence- IPC (Incidence...21,21,345)

A total of 21,21,345 IPC crimes were reported in the country during the year 2009 against 20,93,379 in 2008 recording an increase of 1.3% in 2009. The share of IPC crimes to total cognizable crimes in percentage terms increased from 36.3% in 2005 to 36.8% in 2006. It declined to 34.7% in 2007, increased to 35.3% in 2008 and 31.8% in 2009, thus showing a mixed trend during the five-year period 2005 - 2009. *Madhya Pradesh and Maharashtra accounted for about 9.8% and 9.4% respectively of total crimes reported in the country during 2009.*

Crime Rate - IPC (Crime rate...181.4)

The IPC crime rate has increased by 1.4% during the decade 1999-2009 from 178.9 in 1999 to

181.4 in 2009. It has increased by 5.6% during 2009 as compared with quinquennial average (during 2004-2008) rate of 171.7. *Puducherry (418.5), Kerala (341.5), Chandigarh (324.1), Madhya Pradesh (293.0) and Delhi (282.6) have reported much higher crime rates as compared to the National average of 181.4.*

CHAPTER-2

CRIMES IN MEGA CITIES

Introduction

The term 'Mega City' here refers to cities having population of over 10 lakhs (1 million). The number of such cities has increased from 23 in 1991 to 35 in 2001.

Mega cities are facing increased criminal activities on account of a number of socio-economic factors. This chapter deals with crime analysis relating to these cities.

The actual census population of these cities for the year 2001 is used for calculating the crime rates in the absence of mid-year population estimates for the year 2009 for these 35 cities from the Registrar General of India Office. The population of these 35 mega cities (see Table-1.6) constitutes nearly 10% of the country's total population.

27.8% of population lives in Urban areas as per 2001 census. The present analysis does not aim at complete urban crime pattern in the country but restricts to only 35 mega cities representing nearly 37.8% of total urban population (1078.8 lakh out of 2853.5 lakh as per 2001 census).

Various forms of crime

The present analysis on mega cities is restricted to 22 major specified crimes under IPC and 21 specified crimes under SLL. The city-wise details of these crimes for 35 mega cities are furnished in Chapter-I. Other related details on Property Stolen & Recovered, Crime against Women, Crime against Children and Cyber Crimes are also furnished in the respective chapters of the reports. The major crime pattern of IPC crimes & SLL crimes in 35 mega cities are discussed below.

Crimes under the Indian Penal Code (IPC) Incidence (All India...21,21,345 Mega Cities...3,43,749)

A total of 3,43,749 cognizable crimes under the IPC were reported in 35 mega cities during 2009 as compared to 3,47,153 crimes during 2008, thereby reporting a decline of 1.0%. *There was an increase of 1.3% in IPC crimes during 2009 over the previous year 2008 at the national level.*

The Urban agglomeration centres have accounted for 40.7% (57,038 out of 1,40,027) of the total auto theft cases in the country followed by 28.5% Counterfeiting cases (837 out of 2,935) and 26.9% Cheating cases (19,597 out of 72,718) of the nation's total IPC crime.

The cities of Delhi, Bengaluru and Mumbai have accounted for 13.2%, 9.4% and 9.1% respectively of the total crimes reported from 35 mega cities. Madurai city has reported significant increase of 21.5% IPC crimes as compared to previous year (2008) followed by Jabalpur (20.8%). Surat and Kanpur cities have reported a decline of 29.6% and 23.3% respectively.

Rate of Crime (IPC) (All India...181.4 Mega Cities...318.6)

The average rate of crime in Urban agglomeration centres at 318.6 was much higher than the national crime rate of 181.4 (Table-1.6). Indore reported the highest crime rate (860.3) among the mega cities in the country followed by Bhopal (836.4) and Jaipur (722.4). The crime rate for each city is compared with the corresponding crime rate of the domain State in Table 2(A).

Crime rate (IPC) in cities was generally higher than the corresponding crime rate of domain State. The crime rate was lower than that of the respective State in case of Asansol, Chennai, Kolkata and Madurai. The crime rate in case of Dhanbad (123.7) was slightly higher than that of Jharkhand (122.6). The crime rate at national level increased marginally by 0.6% (from 181.5 in 2008 to 181.4 in 2009), however, the crime rate in cities has decreased by 1.0% (from 321.8 in 2008 to 318.6 in 2009).

CHAPTER-3

VIOLENT CRIMES

Violent crimes affect the life and safety of the people. Such crimes induce a sense of insecurity and fear in the community. The frequency and the magnitude of such crimes also affect the public peace.

The following IPC crimes reported to the Police authorities have been grouped as 'Violent Crimes' for the purpose of crime analysis in this chapter.

I. Violent crimes affecting life

Murder, Attempt to Commit Murder, Culpable Homicide not amounting to Murder, Dowry Deaths and Kidnapping & Abduction;

II. Violent crimes affecting property

Dacoity, Preparation & Assembly for Dacoity and Robbery;

III. Violent crimes affecting public safety

Riots and Arson;

IV. Violent crimes affecting Women

Rape.

Percentage distribution of Violent crimes during 2005-2009

The percentage share of violent crimes reported in the country during 2009 was 10.9% of the total IPC crimes. *The share of violent crimes in total IPC crimes has decreased from 11.1% in 2005 to 10.9% in 2009.* Out of the total 2,30,500 violent crimes reported in

the country during the year, 46.7% crimes were violent crimes affecting life (1,07,580 cases). Violent crimes which affected the property during the year were 12.9% (29,845 cases); those affecting the public safety were 31.1% (71,678 cases) and violent crimes directed against Women (Rape) were 9.3% (21,397 cases) of the total violent crimes.

Trend of Violent Crimes (2005 – 2009)

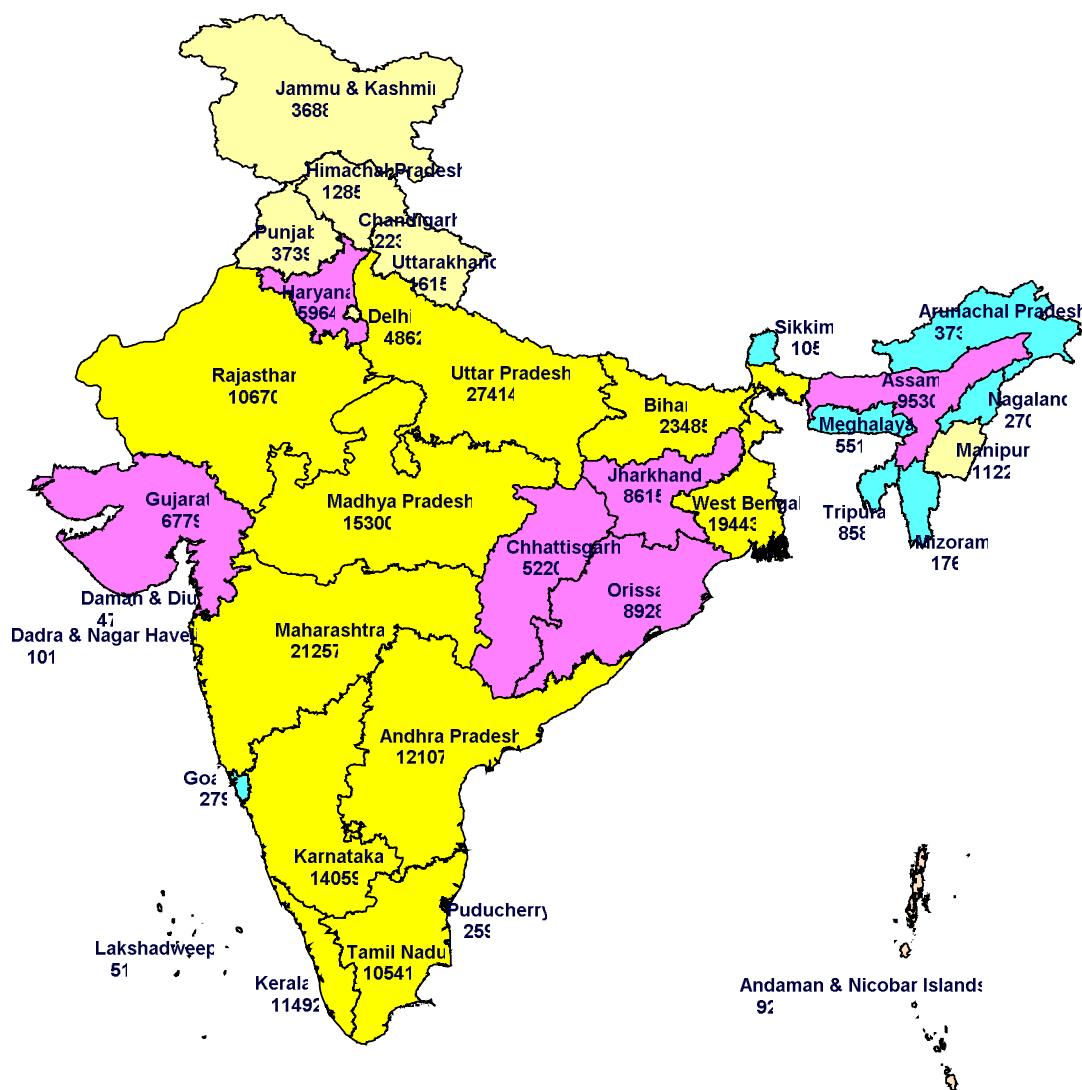

The quantum of total violent crimes is continuously increasing from 2005 to 2009. Though *the share of violent crimes in total IPC crimes has declined over this period (2005 - 2009), the share of violent crimes affecting life continuously decreased till 2008 and again increased in 2009.* *The share of violent crimes affecting women has increased continually from 9.0 in 2005 to 9.6 in 2007 and then decreased to 9.4 in 2008 and further decreased to 9.3 in 2009.* On the contrary, share of violent crimes affecting Public safety has declined during the period 2005 – 2006 and then increased in 2007 and 2008 and again declined to 31.1 in 2009. Share of crimes affecting Property has shown a mixed trend. This is a clear indication of change in the pattern of violent crimes over the years.

Incidence of Violent Crimes (Incidence... 2,30,500 Crime Rate... 19.7)

A total of 2,30,500 incidents of violent crimes were reported in the country during 2009 as to 2,28,663 during 2008 recording an increase of 0.8%. The share of violent crimes to the total IPC crimes during 2009 remained static during 2009 (10.9%, the same as in 2008).

CHAPTER-6

CRIME AGAINST CHILDREN

There is no separate classification of offences against children. Generally, the offences committed against children or the crimes in which children are the victims are considered as Crime against Children. Indian penal code and the various protective and preventive 'Special and Local Laws' specifically mention the offences wherein children are victims. The age of child varies as per the definition given in the concerned Acts and Sections but age of child has been defined to be below 18 years as per Juvenile Justice Act, 2000. Such offences are construed as *Crimes Against Children* for the purpose of analysis in this chapter.

It is also to be borne in mind that the offences that are analysed in this chapter do not form an exclusive block of offences that are reported in the country. They are included in the IPC/SLL cases already discussed in other relevant chapters. The offences mentioned in this chapter have been culled out from various reported crimes in the country wherein the victims of the offences were children.

The data on crimes against children is compiled through the revised annual returns w.e.f. year 2001. Cumulative totals of crime statistics available on monthly basis were used for this analysis till 2000. The revised annual returns have additional heads like 'murder of

children' and 'other crimes', therefore, *incidents of crimes against children during 2001 and later years may not be comparable with the figures of year 2000 and before.*

The cases in which the children are victimised and abused can be categorised under two broad sections:

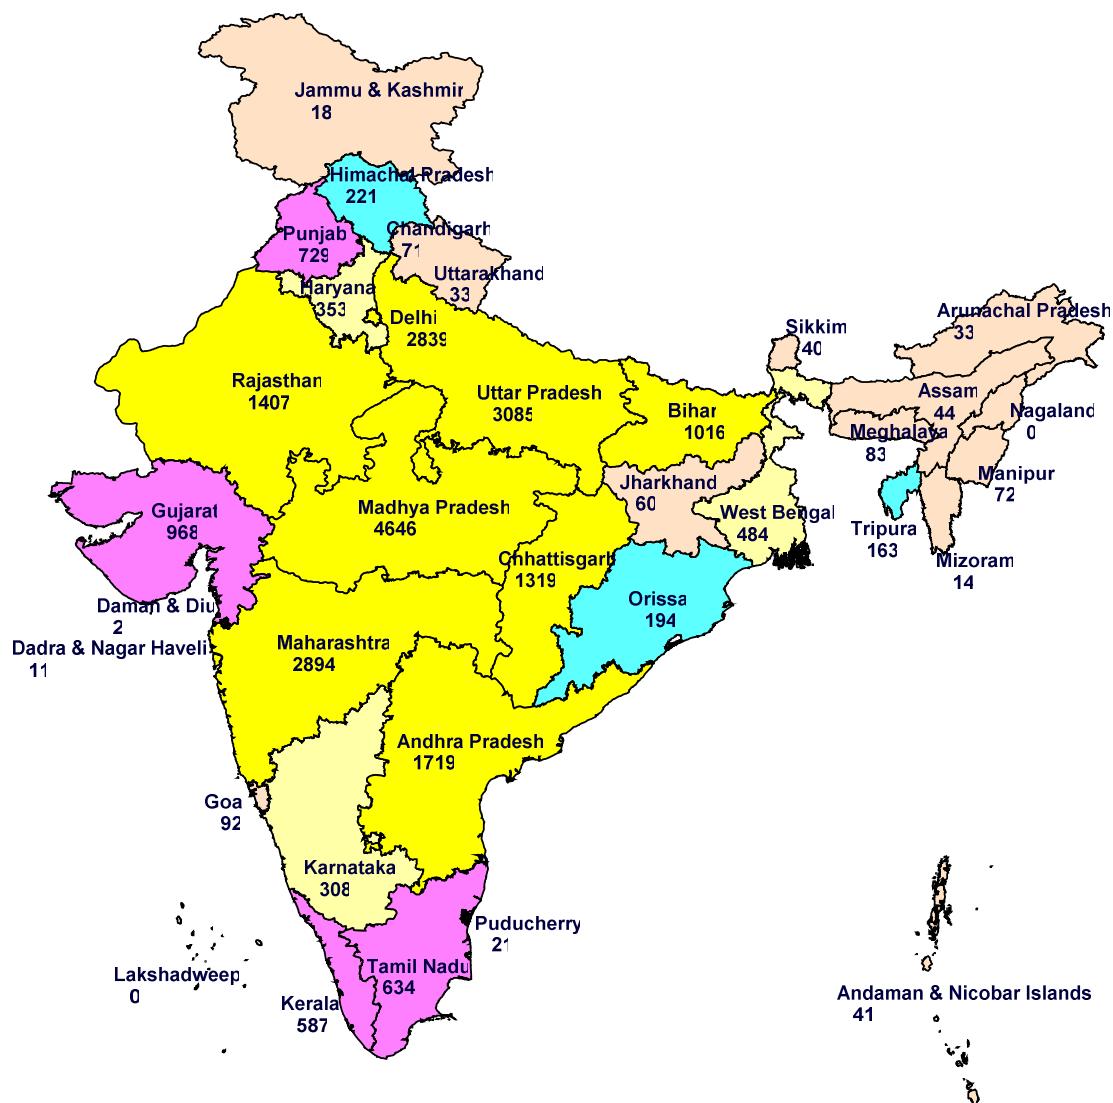

- 1) Crimes committed against Children which are punishable under Indian Penal Code (IPC).
- 2) Crimes committed against Children which are punishable under Special and Local Laws (SLL).

Specific Sections/Acts under above two categories are as follows:

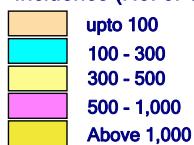

1. **Crimes against children punishable under the Indian Penal Code (IPC) are:**
 - a) Murder (302 IPC)
 - b) Foeticides (Crime against a foetus) Section 315 & 316 IPC.
 - c) Infanticides (Crime against newborn child) (0 to 1 year) Section 315 IPC.
 - d) Abetment to Suicide (abetment by other persons for commitment of suicide by children) Section 305 IPC.

CHAPTER-7

CRIME AGAINST PERSONS BELONGING TO SCs / STs

India is committed to the welfare and development of its people in general and of vulnerable sections of society in particular. Equality of status and opportunity to all citizens of the country is guaranteed by the Constitution of India, which also provides that no individual shall be discriminated against on the grounds of religion, caste or sex, etc. Fundamental Rights and other specific provisions, namely, Articles 38, 39 and 46 in the Constitution of India stand testimony to the commitment of the State towards its people. The strategy of the State is to secure distributive justice and allocation of resources to support programmes for social, economic and educational advancement of the weaker sections in general and those of Scheduled Castes and Scheduled Tribes in particular.

Constitutional Rights

The Indian Constitution vide Article 15 lays down that no citizen shall be subjected to any disability or restriction on the grounds of religion, race, caste, sex or place of birth. It also guarantees that every citizen shall have equality of status and opportunity.

The problems of social inequality and class divide in a

country like India with heterogeneous groups and sub-groups needs to be recognised and resolved by all available democratic measures including special legislations to deal with particular acts constituting offences against such weaker sections of the society. 'Scheduled Castes' and 'Scheduled Tribes' are two such identified social groups. Article 46 of the Constitution of India expressly provides that the State shall promote the educational and economic upliftment of the Weaker Sections of the society, in particular of SCs & STs with special care and shall protect them from injustice and all forms of exploitation.

Legal Rights

Special social enactments have come into force from time to time for SCs and STs in order to uphold the Constitutional mandate and safeguard the interests of this section of the society.

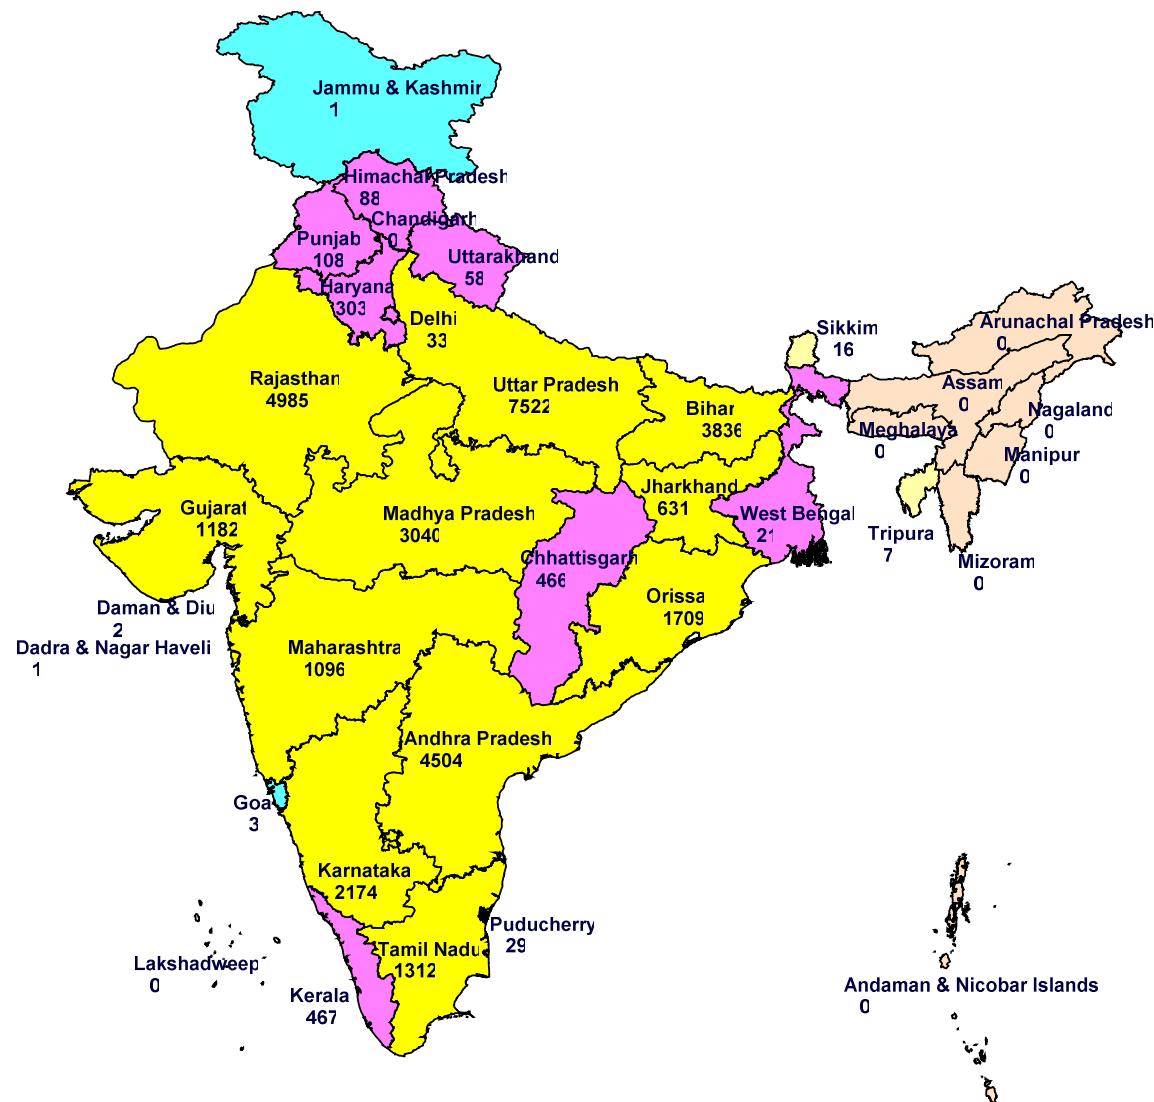

The major legal enactments at the national level are:

- (i) Protection of Civil Rights Act, 1955;
- (ii) Scheduled Caste/Scheduled Tribe (Prevention of Atrocities) Act, 1989

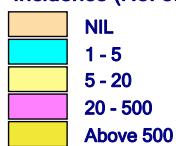

The Protection of Civil Rights Act, 1955 was enacted in furtherance

of Article 17 of the Constitution to abolish untouchability and its practice in any form. The Scheduled Castes and Scheduled Tribes (Prevention of Atrocities) Act, 1989 was brought into force from 30th January 1990 in order to check and deter crimes against SCs/STs by persons belonging to other Communities. These enactments have extended the positive discrimination in favour of SCs and STs to the field of criminal law in as much as they prescribe penalties that are more stringent than the corresponding offences under Indian Penal Code (IPC) and other laws. Special Courts have been established in major States for speedy trial of cases registered exclusively under these Acts.

Classification of Crimes

The crimes against Scheduled Castes/Scheduled Tribes are broadly categorised under two major heads:

(1) Under the Indian Penal Code (IPC)

- (i) Murder
- (ii) Hurt
- (iii) Rape
- (iv) Kidnapping & Abduction
- (v) Dacoity
- (vi) Robbery
- (vii) Arson
- (viii) Others (other classified IPC crimes)

(2) Under Special Laws (SL)

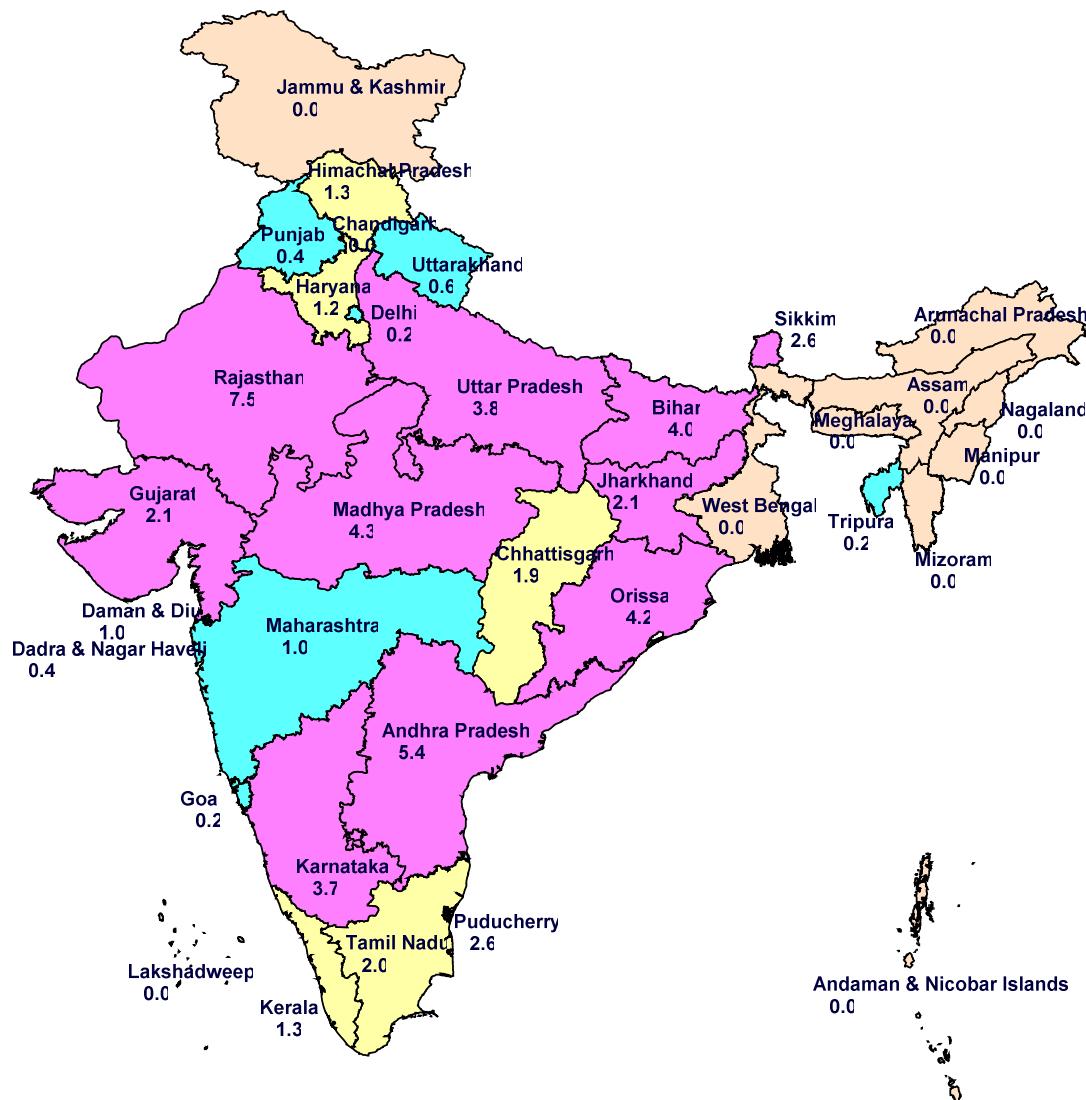

- (i) Protection of Civil Rights Acts, 1955
- (ii) The Scheduled Castes and the Scheduled Tribes (Prevention of Atrocities) Act, 1989.

The crimes under IPC such as 'Murder', 'Hurt', 'Rape', etc. or under Special Acts such as Protection of Civil Rights Act & Scheduled Castes and Scheduled Tribes (Prevention of Atrocities) Act are already included in overall crimes reported under IPC and SLLs respectively and have been discussed in detail in the preceding chapters. The specific crimes against SCs/STs discussed in the following paragraphs are part and parcel of total crimes but analysed separately for better comprehension of crimes committed against SCs & STs.

The data on crimes against SCs/STs are being compiled with provision for district-wise reporting of these crimes with effect from the year 2001. Cases under the Protection of Civil Rights Act and the Scheduled Castes and the Scheduled Tribes (Prevention of Atrocities) Act have been segregated for SCs and STs to have clear picture of all the crimes against each category. Cumulative totals of crime statistics available on monthly basis were used for analysis till 2000 which did not distinguish true or false cases, therefore, the incidence of crime reported in the year 2001 and later years may not be comparable with figures of earlier years.

FIGURE 12.2

All-India total for arrests during 2009 are presented in Table-12.3. Madhya Pradesh and Maharashtra States, which accounted for high share of 9.8% and 9.4% respectively in IPC crimes also accounted for the high arrest figures of 11.7% (3,31,978 out of 28,49,025) and 10.3% (2,94,753 out of 28,49,025) respectively. The increase in the arrested persons during 2009 over 2008 in terms of percentage was significant in Lakshadweep (271.0%), Tripura (49.7%), Jammu & Kashmir (30.3%) and Assam (27.7%).

The sex-wise details of number of persons arrested under IPC Crimes in States and UTs are presented in Table-12.4. The percentage of females arrested under IPC crimes at All-India level was at 6.3%. Himachal Pradesh (11.5%), Maharashtra (9.8%) and Tripura (9.7%) have reported comparatively higher share of females in total arrests.

Persons Arrested under SLL crimes

A total of 49,02,606 persons were arrested under the SLL crimes during 2009 as compared to 42,55,988 during 2008 accounting for an increase of 15.2% during 2009 over 2008. The details on crime-head wise arrests for SLL crimes during the years 2008 and 2009, percentage variation and share of arrestees for each crime are presented in Table-12.5.

Crime head-wise percentage

share of arrestees in SLL cases indicates that the uncategorised 'Other SLL cases' accounted for 76.5% (37,48,802) of the total arrestees in the country during 2009. The highest share of arrestees among the specified crimes was for 'Prohibition Act' (4,08,481) (8.3%) and 'Gambling Act' (3,51,425) (7.2%) followed by 'Excise Act' (1,97,732) (4.0%). The number of arrests has increased by 39.3% and 14.9% respectively for cases reported under 'Indian Railways Act' and 'Excise Act'. A significant decline in arrests was observed in cases of 'Registration of Foreigners Act' (32.8%) (from 2,884 to 1,938) and 'Indecent Representation of Women (Prohibition) Act' (19.1%) (from 1,086 in 2008 to 879 in 2009).

Sex-wise and crime head-wise information on persons arrested and percentage of arrestees during 2009 are presented in Table-12.6. The percentage of females arrested under SLL crimes at All-India level was 3.1% (1,52,465 out of 49,02606) against 6.3% for IPC crimes. The share of female arrestees was highest for cases under 'Immoral Traffic (Prevention) Act' (53.9%) (4,209 out of 7,802) followed by 'Indecent Representation of Women (Prohibition) Act' (46.5%) (409 out of 879) and 'Prohibition Act' (24.2%) (98,651 out of 4,08,481).

The State/UT-wise and sex-wise details of number of persons arrested in various SLL crimes are given in Table-12.7. Gujarat (29.6%), Nagaland (18.4%) and Daman & Diu (17.1%) have reported higher percentage of female arrestees as compared to the National average of 3.1%.

Age-group wise and sex-wise distribution of persons arrested under

various IPC and SLL cases are given in Table-12.8. Among the total (IPC+SLL) arrested persons (77,51,631) those falling under the age-group 18 – 30 years accounted for almost half (46.5%) of total arrestees (36,02,255 out of 77,51,631 arrestees) followed by age-group 30 – 45 years accounting for 36.1% (27,97,865 persons). This confirms the age-group profile of arrestees observed during the previous year reflecting drift of more young people (18 – 30 years) in crimes. The Juveniles arrested accounted for just 0.4% in the total arrests (IPC + SLL) made in 2009. Girls' share was 6.6% among Juveniles arrested.

Information on persons arrested on an average per case under IPC and SLL for the years 2005 to 2009 is presented in Table-12.9. It is seen that the trend of arrests made per case in 2009 is almost the same as the previous year (2008) for various IPC cases. In violent crimes such as Murder, Attempt to Commit Murder, Culpable Homicide not Amounting to Murder, Dowry Deaths and Cruelty by Husband and Relatives about 2 or more persons per case were arrested on an average, signifying involvement of accomplice in such cases. Similarly, 2 persons, on an average, were taken into custody by Police in SLL cases, such as those relating to Gambling Act, Immoral Traffic (Prevention) Act and Protection of Civil Rights Act. The higher arrests per case in cases of Riots (4.8), Preparation & Assembly for Dacoity and Dacoity (3.9 and 3.8 respectively), Immoral Traffic (Prevention) Act (3.2) and

Gambling Act (2.2) during 2009 were specific to the nature of such crimes perpetrated by a group or gang.

Disposal of Persons Arrested under IPC Crimes by Police

The crime head-wise details on the disposal of persons arrested are presented in Table-12.10. A total of 35,32,978 persons were either under custody or on bail at the beginning of the year 2009 for 28,08,468 total IPC offences under investigation by Police (Table-4.1). disciplinary control being exercised by the concerned authorities. Disciplinary actions were initiated against 28,818 Police Personnel in 24,302 cases, which attracted departmental inquiry. The cases were either withdrawn or otherwise disposed off in respect of 4,687 Policemen. *Departmental inquiries were completed against 15,356 personnel, on the basis of which 647 Police Personnel were either dismissed or removed from the service. acquitted and 43 were convicted. The relevant details for the last five years are presented in Table-16 (B).

Departmental action against Police Personnel

The magnitude of Departmental action taken by the States/UTs against the erring Police Personnel indicates the tight

highest dismissals/removals were reported from uttar Pradesh (170) accounting for 26.3% followed by Rajasthan (11.3%), and Andhra Pradesh (9.6%). Minor punishments were given to 18,085 police personnel and major punishments were awarded to 4,227 police personnel during this period.

The comparative rate of complaints per 100 Policemen has been computed for each State/UT on

the basis of actual police strength (Civil + Armed), which is presented in Table-16 (D). Highest number of complaints per 100 Policemen was reported from Madhya Pradesh (20.7) followed by Delhi (9.6), Kerala (8.8), Uttar Pradesh (7.4) and Punjab (6.3) against the National average of 3.5 during the year 2009. Table-17.5 (Chapter-17) reflects low Police strength in Bihar (62 per lakh population) as compared to the National average of 133. This could partly explain the higher rate of complaints against Police in Madhya Pradesh.

Human Rights Violation by Police

An attempt has been made since 1999 to gather information on details of cases where human rights

were violated due to Police excesses such as 'Illegal Detentions', 'Fake Encounters', 'Extortion', 'Torture', etc. The details are presented in Table-16.2.

191 cases of Human Rights Violation by Police were reported throughout the country during 2009. 83 Policemen were charge-sheeted and 58 of them were convicted for these Human Rights Violations during the year. Assam has reported the maximum 96 cases (50.3% of such cases) followed by Chhattisgarh 67 (35.1%). 10 out of 191 cases were reported for crime head 'Extortion'. 5,4,3 cases were reported under the crime head 'Failure in taking action', 'Torture' and 'Indignity to Women' respectively.

CHAPTER-17

POLICE STRENGTH, EXPENDITURE AND INFRASTRUCTURE

The State/UT wise, sex-wise and rank-wise information on 'Sanctioned' as well as 'Actual' police strength in the country as on 31.12.2009 are presented in Table 17.1 to Table 17.4. It is seen from Table-17.1 and Table-17.2 that the existing (Actual) police strength was 15.6 lakhs against the sanctioned strength of 20.3 lakhs of total police force (Civil and Armed combined), rendering 23.1% of the posts vacant.

Civil Police

The 'Actual' strength of Civil Police, including District Armed Police in the country during 2009 stood at 12,15,050 against the 'Sanctioned' strength of 16,12,735 (Table-17.1). Thus, the Civil Police strength in position was 75.3% of the sanctioned strength and 24.7% of the posts were vacant. Maharashtra has the highest strength of Civil Police 1,66,611 accounting for 13.7% of the total civil police in the country followed by Uttar Pradesh 1,14,433 (9.4%). Delhi has the largest contingent of 58,222 (86.3%) of the total Police Strength of 67,462 in the seven Union Territories.

Armed Police

The 'Actual' strength of Armed Police in the country during 2009 was 3,42,447 showing an increase of 0.3% over 2008 (from 3,41,393 in 2008) whereas the 'Sanctioned' strength was 4,12,332 (Table-17.2).

The percentage of vacant posts in case of Armed Police was less (16.9%) as compared to that of

Civil Police (24.7%). The proportion of Actual Armed Police to Actual Civil Police was 1:3.5. Uttar Pradesh had the highest contingent of Armed Police (33,366) followed by Jammu & Kashmir (24,962) and Assam (23,829). There were no sanctioned posts of Armed Police for the UTs of Dadra & Nagar Haveli, Daman & Diu and Lakshadweep. The strength of Armed Police was more than that of Civil Police in only four North-Eastern States of Arunachal Pradesh, Manipur, Mizoram and Tripura.

Women Police

The 'Sanctioned' and the 'Actual' strength of Women Civil Police (including District Armed Police) and Women Armed Police are presented separately in Tables-17.3 and Table 17.4 respectively. *The Actual strength of Women Civil Police including District Armed Police at the National level was 61,174 against the sanctioned strength of 43,513. The proportion of actual 'Women Civil Police' to the total 'Civil Police' was 1:20. The maximum strength of Women Civil Police among the States existed in Maharashtra (12,813) followed by Tamil Nadu (6,279), Karnataka (4,647), Rajasthan (3,705), Orissa (3,144), Kerala (2,736), Uttar Pradesh (2,411), West Bengal (2,348), Punjab (1,792), Madhya Pradesh (1,765), Jammu & Kashmir (1,760), Haryana*

(1,701), Gujarat (1,636), Jharkhand (1,444), Andhra Pradesh (1,342), Chhattisgarh (1,117), Uttarakhand (1,115) and Bihar (1,085). The remaining States had strength of less than one thousand. Delhi had the largest contingent of Women Civil Police among UTs with strength of 4,480. 14 States and 5 UTs had more number of women civil police than their sanctioned strength. *There was no Woman Civil Police in Mizoram and Daman & Diu (Actual or Sanctioned).*

Women Armed Police is in existence in only 15 States / UTs - Assam, Goa, Haryana, Himachal Pradesh, Jharkhand, Madhya Pradesh, Meghalaya, Nagaland, Rajasthan, Tamil Nadu, Uttarakhand, West Bengal, Chandigarh, Delhi and Puducherry. These States/UTs together have a strength of 4,282 Women Armed Police. The ratio of Women Armed Police to the Women Civil Police was 1:14.3 while their share to the Total Armed Police (men & women combined) in the country was 1.2%.

Ratio of Police to Area and Population

Just as the crime incidence in an area is not a representative pointer to the crime situation, the absolute strength of police personnel is also not a true indicator of the magnitude of crime and its combating machinery as well as performance of other assigned tasks by police. The number of policemen per 100 Sq. Kms and per 1,000 of population are considered to be important indicators in planning for their deployment. The State/UT-wise availability of police strength by various parameters is

presented in Table 17.5.

Police Strength per unit Area / Population

The strength of police personnel per unit area in the country i.e., per 100 Sq. Kms. was 49.2. This recorded an increase of 17.7% in the decade 1999 - 2009 (from 41.8 in 1999 to 49.2 in 2009). An increase of 5.8% has been observed in police personnel per 100 Sq. Kms. during 2009 as compared to previous year 2008 (46.5). However, it should be noted that the area coverage being a constant, the density of population is expected to progressively increase with times. The UTs of Delhi and Chandigarh have recorded significantly higher density values at 4,345.4 and 4,118.4 policemen per 100 Sq. Km. respectively as in the past which is much higher than the National average of 49.2 in 2009.

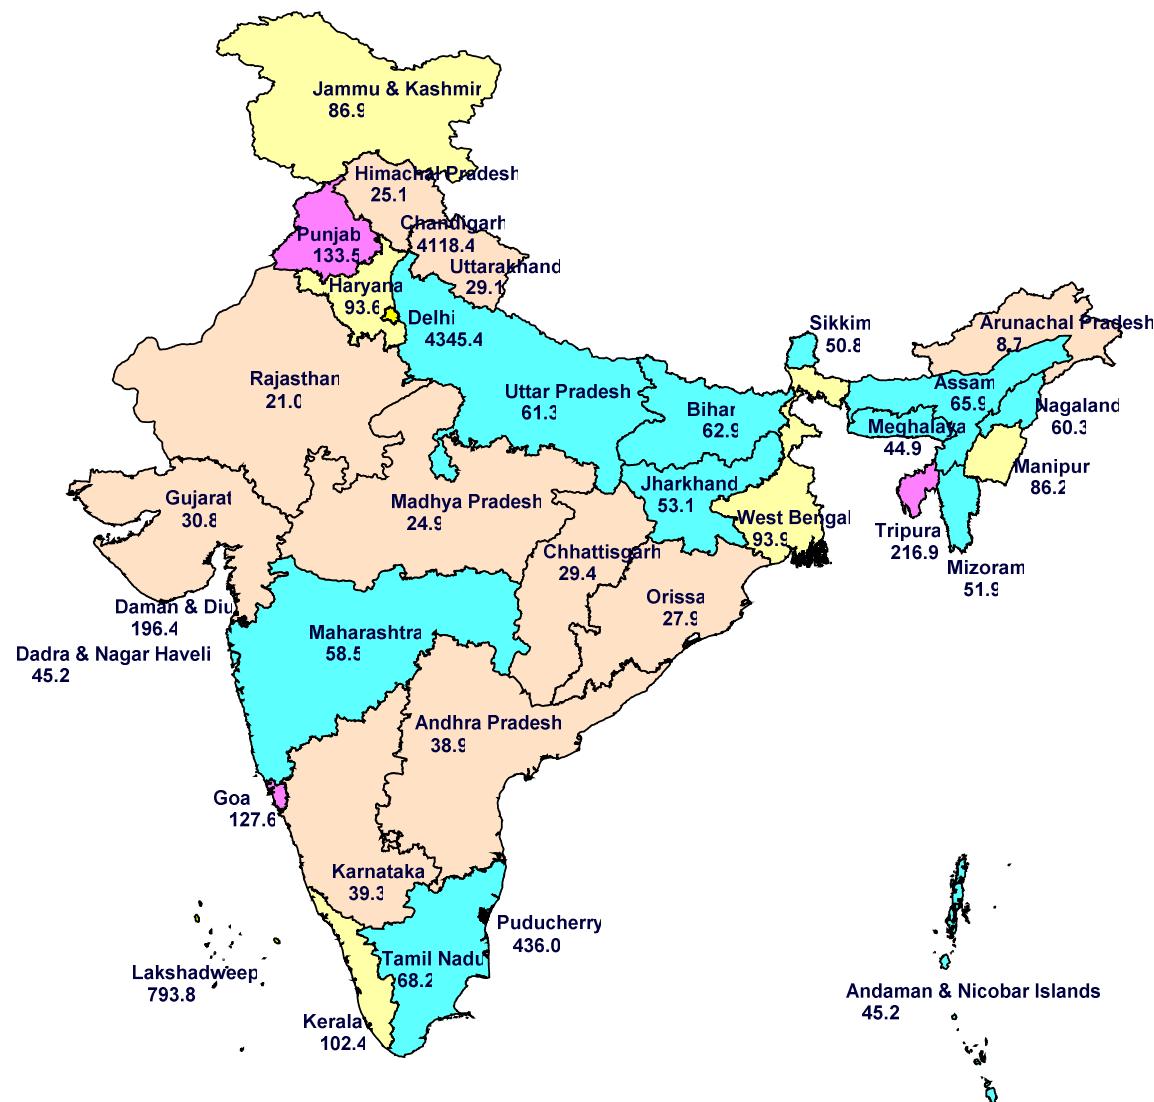

The strength of police personnel per 1,000 population in the country was observed to be at 1.3. When exponentiated to 1,00,000 population at par with the universal yardstick adopted for crime rate, it showed that the *number of policemen available per one lakh population varied, on an average, between 122 to 134 during the decade (1999 - 2009) with 133 per one lakh population during 2009.*

Police Expenditure

The State Governments and UT Administrations incurred an expenditure of ₹ 31,748.3 crore on the police, averaging an expenditure of ₹ 2,03,814 per policeman per annum. The highest per capita expenditure on policeman during the year was in Nagaland (₹ 4,97,851) followed by Lakshadweep (₹ 3,63,780), A & N Islands (₹ 3,42,022), Dadar & Nagar Haveli (₹ 3,28,378), Puducherry (₹ 3,28,065) and Jharkhand (₹ 2,95,734). West Bengal has reported the lowest expenditure of ₹ 1,41,081 per policeman.

Home Guards and Auxiliary Forces

Frequent deployment of Home Guards and Auxiliary forces is required to maintain Law and Order in the country due to increasing workload of the Police. Table-17.6 provides information on sanctioned and actual strength of Home Guards and other forces in the country. *The total sanctioned and actual strength of Home Guard officers and lower subordinate staff in the country was 1,97,094 and 1,71,497 respectively. Gujarat had the maximum sanctioned strength of 42,448 of*

these forces against actual 36,992 personnel followed by Andhra Pradesh with sanctioned and actual strength of 27,223 and 27,193 respectively.

Information on Police Housing

Police Manpower alone is not sufficient to curb the crime unless they are motivated and facilitated with basic necessities such as equipment, transport, housing, medical insurance, etc. Therefore, an attempt has been made to compile auxiliary information such as availability of housing facility to various categories of Police officials, availability of vehicles and sophisticated gadgets with the police, etc. Information on the availability of Police housing facility against the sanctioned police force for different categories is presented in Table-17.7.

The information on Police Housing has been furnished by the State Police. *The housing facility (whether built-in houses provided by Govt. or houses provided on lease, rent, general pool, etc.) is available to nearly 6.7 lakhs policemen (32.8%) of the Police Force against the Sanctioned Police Strength of 20.2 lakhs in the country. It is observed that 40.4% (6,316) Officers have got the housing facility against 37.6% (91,688) of Upper Subordinates and 32.1% (5,67,215) of Lower Subordinates out of total sanctioned strength.*

The State / UT-wise information on Equipment & Transport facility available with the Police, number of Police Stations by the quantum of crimes, number of Police Stations by strength of Police Personnel, number of Rural/Urban/Women Police Stations, Representation of SCs / STs and Muslims in Police force is also compiled and presented in Table 17.8 to Table 17.12 (*This information is being compiled in this report since 1999.*)

It is observed that, 1,34,386 Motor Vehicles are available with Police all over India to enable them to perform their duties efficiently. 56,324 (41.9%) out of these are Motor Cycles, 6,636 Cars (4.9%), 37,031 Jeeps (27.5%), 8,270 One Tonners and 9,857 are Three Tonners. Remaining 16,268 are other types of vehicles. Karnataka has the highest number of Motor Vehicles (15,624) followed by Maharashtra (14,219), Tamil Nadu (12,533) and Uttar Pradesh (11,581).

Police have 3,31,830 different types of wireless equipments. 1,31,921 out of these are H.F. / V.H.F., 1,48,068 are Walkie Talkie and remaining 51,841 are other types of wireless equipments. Delhi is equipped with highest number of wireless equipments (18,809) amongst UTs. States of Karnataka (55,003) and Uttar Pradesh (36,930) were among the best equipped with wireless equipments. Details may be seen in Table 17.8.

There are 13,499 Police Stations in the country, as per information furnished by various

States and UTs, out of which 25.5% deal with 101-200 cases per year on an average and 16.6% deal with 201-300 cases per year. Only 3.0% Police Stations (446) in the country deal with more than 1,000 cases in a year. Details may be seen in Table 17.9.

Police Stations by strength of Police Personnel may be seen in Table 17.10. 23.6% out of total 13,499 Police Stations had a strength of 11 - 20 personnel, 23.2% Police Stations had a strength of 21 - 30 personnel and 6.3% Police Stations had a strength of Police Personnel less than 10. 20.9% of Police Stations had staff strength of more than 50 persons and nearly 26.0% had 31 - 50 personnel.

There are 725 districts, 2,109 sub-divisions and 2,491 circles. 64.3% police stations are in rural areas and 35.7% are in urban areas. There are 524 women police stations all over India amounting to 3.9% of all Police Stations (13,499). Details may be seen in Table 17.11.

Information on representation of SCs / STs and Muslims in Police Forces (excluding Jharkhand and Madhya Pradesh – on account of non-receipt of data) show that 13.6% police personnel belong to Scheduled Castes, 9.3% belong to Scheduled Tribes and 7.2% are Muslims out of Total Actual strength of 14,38,301 about which this information is available. Remaining police personnel belong to other categories. Details may be seen in Table-17.12.

CHAPTER-18

CYBER CRIMES

Cyber Crimes are a new class of crimes rapidly increasing due to extensive use of Internet and I.T. enabled services.

IT Act, 2000 was amended in 2009. The collection of data for 2009 has been done under pre-amended IT Act. Hence data under certain clauses introduced after amendment is not available in this Chapter. The Information Technology (IT) Act, 2000, specifies the acts which are punishable. Since the primary objective of this Act is to create an enabling environment for

commercial use of I.T., certain omissions and commissions of criminals while using computers have not been included. Several offences having bearing on cyber-arena are also registered under the appropriate sections of the IPC with the legal recognition of Electronic Records and the amendments made in several sections of the IPC vide the IT Act, 2000.

The statistics on Cyber Crimes are collected under the following heads:

Cyber Crimes – Cases of Various Categories under IT Act, 2000

420 cases were registered under IT Act during the year 2009 as compared to 288 cases during the previous year (2008) thereby reporting an increase of 45.8% in 2009 over 2008. 23.1% cases (97 out of 420 cases) were reported from Karnataka followed by Kerala (64), Maharashtra (53), Andhra Pradesh (30) and Punjab (28).

33.1% (139 cases) of the total 420 cases registered under IT Act 2000 were related to Obscene publication / transmission in electronic form, normally known as cyber pornography. 141 persons were arrested for committing such offences during 2009. There were 233 cases of Hacking with Computer Systems during the year wherein 107 persons were arrested. Out of the total (233) Hacking cases, the cases relating to Loss / Damage of computer resource/utility under Sec 66(1) of the IT Act were 49.4% (115 cases) whereas the cases related to Hacking under Section 66(2) of IT Act were 50.6% (118 cases). Maharashtra (25), Andhra Pradesh (21) and Kerala (15) registered maximum cases under Sec 66(1) of the IT Act out of total 115 such cases at the National level. Out of the total 118 cases

relating to Hacking under Sec. 66(2), most of the cases (91 cases) were reported from Karnataka followed by Tamil Nadu (8) and Madhya Pradesh (6).

27.1% of the 288 persons arrested in cases relating to IT Act, 2000 were from Maharashtra (78) followed by Kerala (47). The age-wise profile of persons arrested in Cyber Crime cases under IT Act, 2000 showed that *64.6% of the offenders were in the age group 18 – 30 years (186 out of 288) and 28.8% of the offenders were in the age group 30 - 45 years (83 out of 288)*. Maharashtra (6) and Kerala (4) reported offenders whose age was below 18 years. Further details on the State/UT-wise and age-group wise profiles may be seen in Table -18.2.

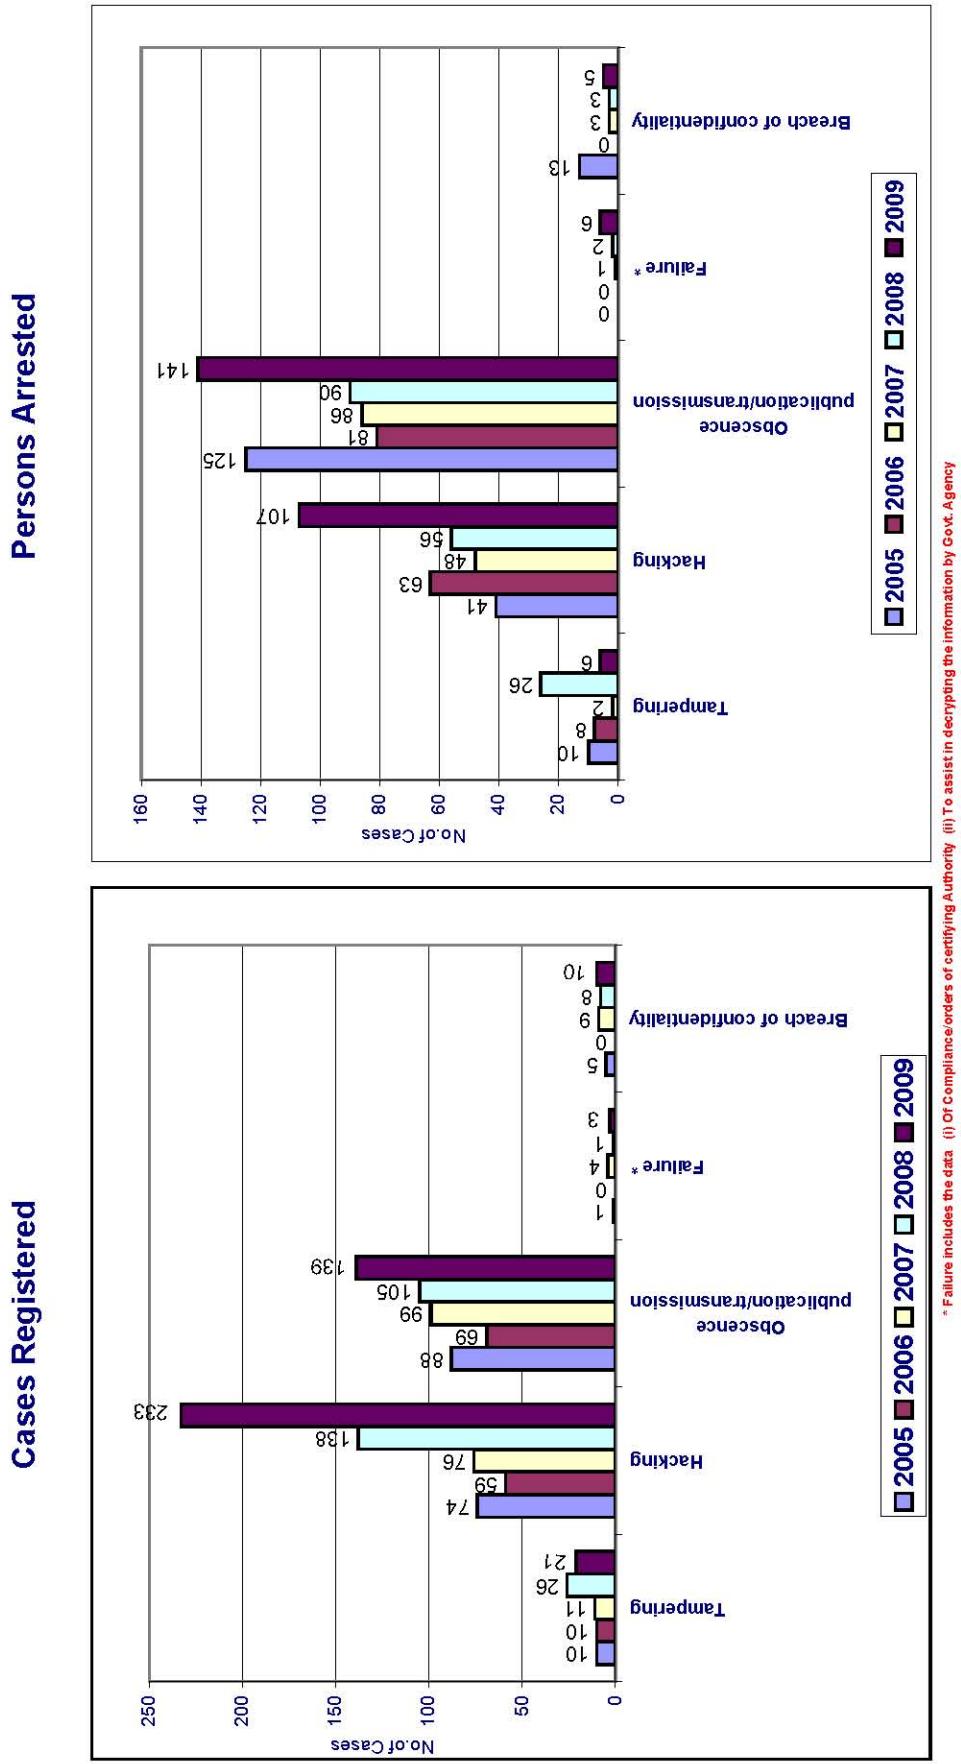

Crime head-wise and age-group wise profile of the offenders arrested under IT Act, 2000 (Table 18.5) reveals that 49.0% (141 out of 288) of the offenders arrested were under 'Obscene publication / transmission in electronic form' of which 68.1% (96 out of 141) were in the age-group 18 –30 years. 57.9% (62 out of 107) of the total persons arrested for 'Hacking with Computer Systems' were in the age-group of 18 - 30 years.

Incidents of Cyber Crimes registered under IPC

Information on the cases registered under various sections of IPC which were considered as Cyber Crimes at All-India level is presented in Table – 18(B).

Cyber Crimes – Cases of Various Categories under IPC Section

A total of 276 cases were registered under IPC Sections during the year 2009 as compared to 176 such cases during 2008 thereby reporting an increase of 56.8%. Maharashtra reported maximum number of such cases (108 out of 276 cases or 39.1%) followed by Chhattisgarh 16.7% (46 cases) and Punjab 10.1% (28 cases). Majority of the crimes out of total 276 cases registered under IPC fall under 2 categories viz. Forgery (158) and Criminal Breach of Trust or Fraud (90). Although such offences fall under the traditional IPC crimes, these cases had the cyber overtones wherein computer, Internet or its enabled services were present in the crime and hence they were categorised as Cyber Crimes under IPC. The Cyber Forgery (158 cases) accounted for 0.21% out of

the 72,718 cases reported under Cheating. The Cyber Frauds (90) accounted for 0.55% of the total Criminal Breach of Trust cases under IPC (16,326).

The Crime head and State / UT-wise analysis of Cyber Crimes under IPC are presented in Table 18.7. The Cyber Forgery cases were the highest in Maharashtra (67) followed by Chhattisgarh (32) and Gujarat (13). The cases of Cyber Fraud were highest in Maharashtra (30) followed by Punjab (19) and Gujarat & Tamil Nadu (11 each).

A total of 263 persons were arrested in the country for Cyber Crimes under IPC during 2009. 61.2% offenders (161) of these were taken into custody for offences under 'Cyber Forgery', 30.0% (79) for 'Criminal Breach of Trust/Fraud' and 8.7% (23) for 'Counterfeiting'.

The States such as Maharashtra (89), Punjab (48), and Chhattisgarh (44) have reported higher arrests for Cyber Crimes registered under IPC. The age group-wise profile of the arrested persons under this category showed that 45.2% (119 out of 263) were in the age-group of 30 - 45 years and 41.8% (110 out of 263) of the offenders were in the age-group of 18-30 years. No offenders were below 18 years of age. Further details on the State/UT-wise and age group-wise profile of the Offenders are presented in Table-18.3.

Crime head-wise and age-wise profile of the offenders arrested under Cyber Crimes (IPC) (Table 18.5) for the year 2009 reveals that offenders involved in Forgery cases were more in the age-group of 18 - 30 (47.2%) (76 out of 161). 49.4% of the persons arrested under Criminal Breach of Trust / Cyber Fraud offences were in the age group 30-45 years (39 out of 79).

Incidence of Cyber Crimes in Cities

14 out of 35 mega cities did not report any case of Cyber Crime i.e, neither under the IT Act nor under IPC Sections during the year 2009.

20 mega cities have reported 178 cases under IT Act and 14 mega cities reported 168 cases under various section of IPC. There was an increase of 23.6% (from 144 cases in 2008 to 168 cases in 2009) in cases under IT Act as compared to previous year (2008), and an increase of 300.0% (from 42 cases in 2008 to 168 cases in 2009) of cases registered under various sections of IPC (Table 18.1)

Bengaluru (97), Ahmedabad (10), Bhopal, Coimbatore and Kochi (6 each) and Delhi City, Indore, Ludhiana and Pune (5 each) have reported high incidence of cases (145 out of 178 cases) registered under IT Act, accounting for more than half of the cases (81.5%) reported under the IT Act. Nasik has reported the highest incidence (68 out of 168 cases) of cases reported under IPC sections accounting for 40.5% followed by Mumbai (35 or 20.8%).

CHAPTER-19

CRIME IN RAILWAYS

Introduction

Whereas the maintenance of law & order in Railways and Railway premises is the responsibility of concerned State Police, the security of passengers and their belongings in the running trains and railway premises is the joint responsibility of the Railway Protection Force and the concerned State Police. The responsibility of security of railway passengers, passenger area and property has been vested with the Railway Protection Force by RPF Amendment Act, 2003. The cases of crime in Railways are reported to, registered and investigated by the Government Railway Police (GRP). The investigation and prosecution of crime under the Indian Penal Code as well as sabotage related cases under the Railways Act (Sec. 150 to 152) are the responsibility of the State Police. The enforcement of Railways Property (Unlawful Possession) Act, 1966 and the Railways Act, 1989 excluding Sec. 150 to 152 has been entrusted to Railway Protection Force whereas the Indian Penal Code, all other Special and Local Laws and maintenance of law and order remains with Government Railway Police and State Governments concerned.

The responsibility for arrest and prosecution of minor offences

under the Railways Act (which affect the normal passengers and the train operations) have been vested with the Railway Protection Force by amending the Railway Protection Force Act, 1957 and the Railways Act, 1989, with a view to supplement the efforts of the Government Railway Police and State Governments in maintaining Law & Order and help them concentrate better on serious crimes. The amendments in these Acts came into force from 1st July 2004.

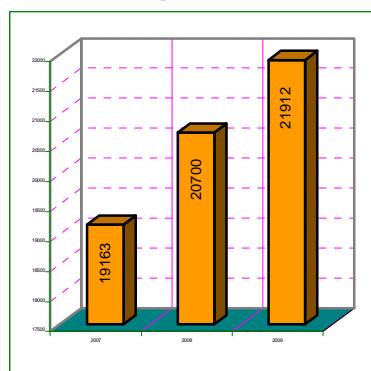

Though the incidents of specific crimes on Railways discussed below are part and parcel of the general crimes discussed in Chapter-I of the report, efforts were made in 2005 for the first time to separately analyse the extent of these crimes both as reported under Indian Penal Code and Indian Railways Act, 1989.

Trend of Crimes in Railways

19 out of 28 States namely, Andhra Pradesh, Assam, Bihar, Chhattisgarh, Gujarat, Haryana, Himachal Pradesh, Jammu & Kashmir, Jharkhand, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Orissa, Punjab, Rajasthan, Tamil Nadu, Uttar Pradesh and West Bengal and only Delhi among UTs have notified Government Railway Police Posts.

The State-wise comparison of incidents of IPC crimes reported by GRP during 2007 to 2009 is presented in Table-19.1. Incidence of IPC crimes reported in the country during 2009 has shown an increase over 2008.

Incidence of IPC Crimes Reported by Govt. Railway Police (GRP) During 2007-2009

A total of 19,163, 20,700 and 21,912 IPC crimes were reported by GRPs during 2007 to 2009 respectively at the National level reflecting an increase of 8.0% in 2008 over 2007 and again an increase of 5.9% in 2009 over 2008. Except Gujarat and West Bengal all other 17 States have shown increasing trend during 2009. Crime incidence in Delhi UT has also declined during 2009. Details can be seen in Table 19.1.

Andhra Pradesh, Bihar, Chhattisgarh, Haryana, Himachal Pradesh, Madhya Pradesh, Maharashtra, Orissa, Punjab and Tamil Nadu have shown an increasing trend over the last 3 years. Andhra Pradesh reported an increase of 7.2% in 2008 over 2007 and 31.0% in 2009 over 2008 (from 993 cases in 2007 to 1,064 in 2008 and 1,394 cases in 2009). Bihar

reported an increase of 7.8% in 2008 over 2007 and 4.6% in 2009 over 2008 (from 2,076 cases in 2007 to 2,238 cases in 2008 and 2,342 cases in 2009). Similarly, Chhattisgarh has shown an increasing trend of 3.4% in 2008 over 2007 and 18.9% in 2009 over 2008. Likewise, Haryana has shown an increase of 10.6% in 2008 over 2007 and 0.3% in 2009 over 2008. Himachal Pradesh has reported an increase of 100.0% in 2008 over 2007 and 12.5% in 2009 over 2008. Madhya Pradesh has shown an increase of 1.1% in 2008 over 2007 and 8.0% in 2009 over 2008. Maharashtra has shown an increase of 15.8% in 2008 over 2007 and 3.2% in 2009 over 2008. Orissa has shown an increase of 29.5% in 2008 over 2007 and 22.3% in 2009 over 2008. Punjab has shown an increase of 31.0% in 2008 over 2007 and 16.7% in 2009 over 2008. Tamil Nadu has shown an increase of 41.6% in 2008 over 2007 and 3.6% in 2009 over 2008.

The crime head-wise and State-wise incidence of various IPC crimes as reported to Government Railway Police (GRP) during the years 2007 to 2009 are presented in Tables-19.2 to 19.4.

Crime head-wise analysis reveals that cases of Arson (7, 3 and 1 case) have shown decreasing trend during 2007 to 2009.

SLL Crimes (Cases Reported under Indian Railways Act, 1989)

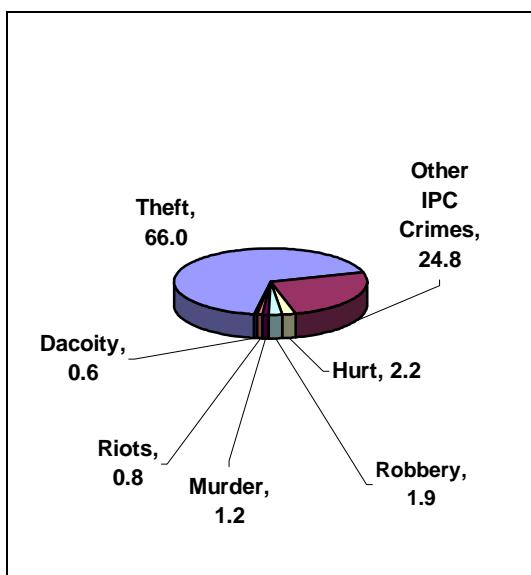

An attempt has been made

to analyse crimes reported under the Indian Railways Act, 1989 during 2007 to 2009. The State/UT-wise details are presented in Table-19.5.

The incidents of crimes under the Indian Railways Act reported a mixed trend during 2007 to 2009 with 186, 145 and 175 cases reported during these years respectively thereby reflecting a decline of 22.0% during 2008 over 2007 and increase of 20.7% during 2009 over 2008 respectively.

The States of Andhra Pradesh, Bihar, Gujarat, Karnataka, Madhya Pradesh and Punjab have reported significant increase in incidence in the year 2009 over the year 2008.

Percentage of Incidence of Various IPC Crimes Reported by GRP During 2009

Note: Other IPC Crimes in Railways include figures of Kidnapping & Abduction (0.4%), Causing Death by Negligence (0.3%), Burglary (0.6%), Attempt to Commit Murder (0.5%), Preparation & Assembly for Dacoity (0.3%), Rape (0.15%), C.H. Not Amounting to Murder (0.1%), Arson (Negligible)

It is worth mentioning that the responsibility for arrest and prosecution of minor offences under the Railways Act (which affect the normal passengers and the train operations) have been vested with the Railway Protection Force by amending the Railway Protection Force Act, 1957 and the Railways Act, 1989 which came into force from 1st July 2004.
